Marsee 10L & 15L Tank Bag Features

Marsee 10 and 15 Liter Tank Bags Features

Our 10 and 15 Liter Tank Bags are triple layer molded for strength, flexibility and water resistance. Installed on the tank bags is an injection molded 2.0mm polycarbonate lid to provide ultra clear transparency to maps or other items stored in the Marsee tray. Polycarbonate is noted for its impact strength, clarity and resistance to the forces of nature. The Marsee tray is designed to hold communication and electronic gear, maps, etc. The Marsee tray helps protect such items from the elements of nature and places such items at the finger tips of the operator. The Marsee tray has two egress ports from the bottom of the tray, plus two exit ports at the front of the tray. Optional Powerlet products bring the power to the bag (see page 8 for Electrical Kits A and B). Patents applied for on clear lid and tray.

Additional map and important document storage is located in a clear vinyl pocket in the top of the zip off base (magnetic and quick release mounts only). This pocket has a water resistant zipper.

The corners of the tank bag are chamfered to create an “octagonal” shape that eliminates sharp corners for better fit and comfort. Marsee D-rings are located on all four corners to lash down items such as gloves.

Inside storm flap keeps weather out. Silver colored, seam sealed interior prevents water entry. The top lid is triple laminate EVA, so interior is very water resistant.

Silver interior eliminates the “dark hole” appearance and makes it easier to find dark objects inside the bag.

Each bag has an organizer area on the inside cover.

Mounting options include:

Corona Mounted Tank Bag for BMW-
Utilizing the fuel cap ring as the mounting point permits the tank bag to virtually float above the tank. It is easy on and off (patent applied for). Available for BMW’s with the standard 6-bolt hole pattern around the gas cap.
Corona Mounted Tank Bag for BMW K1200LT-
This special kit includes additional hardware necessary to mount the bag using the Corona Mount onto the oddments box lid on a BMW K1200LT. Available for 10L Rocket Pocket.
Magnetic Base Mounted Tank Bags- Marsee invented the magnetic tank bag in 1976, since then it has become one of the most popular mounting options.
4 Point Quick Release Mounted Tank Bags- Easy to install and easy to disconnect and 25% more stable than 3 point mounted systems.

Marsee 10 Liter Rocket Pocket

Marsee 1.5 Liter Bullet Bag

The 1.5L Bullet Bag has the same great features as full-size Marsee Tank bags, but is a compact size! It is the ideal size for a wallet, cell phone, change and smaller items. This magnetic mount tank bag has a clear map pocket with waterproof zipper. The inside is a waterproof, silver material that allows dark objects to be seen easily.

Marsee features include:
- Inside organizer
- D-rings
- Shoulder Strap
- Inside I.D. card holder
- Storage pocket

Overall Dimensions:
7” Long, 5” Wide, 3.5” High

MAR-1.5BM.....**1.5L Bullet Bag with Magnetic Mount**

Marsee 6 Liter Ciao Borsa

6L Ciao Borsa with Magnetic Mount

Corona Mount

“Ciao” in Latin based languages means “hello and goodbye”. The ideal name for this 6 liter bag (Borsa= Bag, in Latin). The Ciao Borsa will hold pretty much everything you need for a day trip or work commute. The octagon shape with chamfered corners is ideal for rider comfort and handle-bar clearance. Adjustable shoulder strap comes standard. The physical size of the Ciao Borsa makes for friendly mounting to almost any motorcycle!

Overall Dimensions:
10.5” Long, 8.5” Wide, 5.25” High

Marsee features include:
- Removable map pocket
- Molded handle partially recessed
- Inside organizer
- D-rings
- Inside storm flap
- Seam sealed silver interior

MAR-6LT.....**6L Ciao Borsa with Corona Mount for BMW K1200LT***
*special hardware included to mount to the oddments box lid- see website for details and images

Electrify this bag! Add an electrical Kit A or B to any of the 6L Ciao Borsa Bags.
See page 8 for electrical kit descriptions.

Marsee 12L Tear Drop & 20L Mr. Pockets

Marsee 12 Liter Tear Drop Tank Bag Expandable

Best Seller!

The Marsee 12L Tank Bag has a contoured shape that makes it a natural fit for almost any tank with a gradual slope. The mounting system utilizes four straps with quick release mono buckles that swivel 90 degrees for mounting versatility. This bag has a waterproof map pocket, expands up to 4" and is made of strong 1680 denier waterproof fabric.

Features:
- Three D-rings to attached additional items
- Two D-rings to attach the included adjustable dual pivoting shoulder strap
- Waterproof zippers on both the map pocket and main bag entry
- Reflective piping for low light conspicuity
- Included rain cover has a clear top and a draw cord and cord lock to secure the bag in place
- End pocket stores the rain cover in the lower compartment and has space in the upper compartment for coins, glasses etc.
- 9" hidden waterproof zippered storage sleeve below end pocket
- Hydration clip on side allows easy mounting of the drinking tube from hydration systems
- Interior is made of waterproof silver fabric that makes dark objects inside the bag more visible
- Organizer area inside lid
- Retention straps hold the bag open when the bag is unzipped
- Expands up to 4" and is adjustable with compression cords and cord locks on each side

Base Features:
- Quick release mono buckles for easy mounting with four included straps
- Base has map pocket which permits the base to be used separately when needed
- Non-slip fabric on the bottom has excellent grip and is non-abrasive
- Additional storage slot underneath the map pocket

Dimensions:
Base of bag: 12" Long, 8-1/2" to 10" wide
Height: 6" to 9", expanded adds 4" overall to the height

MAR-12DQR.....**12L Tear Drop Quick Release**

20L BMW Corona Mr. Pockets

The Corona Mr. Pockets has all the great features of Marsee tank bags, mounted with the innovative Corona Mount. Simplistic in execution, the bottom Corona is bolted to the outer ring of the motorcycle fuel cap. The upper Corona is bolted to the bottom of the tank bag. To operate, simply place the upper Corona on the bottom Corona at about 8:00, push down then twist the bag to 12:00 and the 4 top magnets engage with the bottom 4 magnets and the bag is secure!

Marsee features include:
- Inside organizer area with I.D. card holder
- External D-rings to attach additional items
- Shoulder straps
- Removeable top map pocket
- 3 external storage pockets
- Expands up to 4" and is adjustable with compression cords and cord locks on each side
- Reflective piping for low light conspicuity
- Includes Rain Cover and Marsee Wallet

Dimensions:
Base of bag: 14" Long, 12" wide
Height: 6", expanded adds 4" overall to the height

Marsee Electrical Kits & 20L Rear Bag

Electrical Kits (available installed on all Marsee Tank Bags)

Our Powerlet kits include what you need for a total solution! You may however need additional adapters or internal modules to suit the electronics you may run. We recommend buying our kits, but all Powerlet items are available separately for your installation. Order one of these kits with your Marsee tank bag and we'll install it! **Pictured installed in Marsee Tank Bag with optional cell phone cord.**

Powerlet Kit A- for BMW's, Triumphs and Ducatis

This kit is your solution to powering items in your bag! Kit A is for BMW's, Triumph ST, GT and Ducati's with factory installed outlets.

Includes:

- Powerlet plug, right angle, 34" long. This plugs into your factory plug socket already in your bike and runs up to the Powermate outlet on the tank bag.
- Powermate Power Supply Socket. The Powermate outlet is the piece that installs into your tank bag and gives you a standardized viewport accessible inside your tank bag in a variety of internal cables.
- Internal cable plugs inside tank bag into Powermate outlet. One internal Y-cable provided with one SAE plug for electric clothing and one cigar (large cigarette auto-style outlet) good for charging cell phone, GPS etc. For those with more than one type of device, you may need to order additional cables **(see pages 40-42)**.

To order this with your tank bag, add "-A" to the tank bag part number. We'll install it on your bag for you!

Powerlet Kit B- Installs Directly on Battery

This kit is your solution to powering items in your bag! Kit B is for most bikes. Installs directly to battery.

Includes:

- 48" long fused battery lead. This easily installs onto battery and cable runs up to the Powermate outlet on the tank bag. Includes fuse. This cable should reach from battery to front of tank bag.
- Powermate Power Supply Socket. The Powermate outlet is the piece that installs into your tank bag and gives you a standardized viewport accessible inside your tank bag in a variety of internal cables.
- Internal cable plugs inside tank bag into Powermate outlet. One internal Y-cable provided with one SAE plug for electric clothing and one cigar (large cigarette auto-style outlet) good for charging cell phone, GPS etc. For those with more than one type of device, you may need to order additional cables **(see pages 40-42)**.

To order this with your tank bag, add "-B" to the tank bag part number. We'll install it on your bag for you!

Best Seller!

Marsee 20 Liter Rear Bag

The Marsee 20 Liter Rear Bag has a three way universal mounting system that will fit almost any two-wheel transportation, from scooters to cruisers. It is the perfect day bag for extra storage for items such as a wallet, phone, paperwork, drinks (it can double as a cooler!), rainsuit and more!

Features:

- Main compartment with external pockets on all four sides
- Waterproof zipper into main compartment with an internal storm flap
- Silver waterproof fabric interior to prevent water entry and make dark objects more visible
- Can be used as a short term cooler
- I.D. cardholder on the inside of the lid
- Reflective fabric and piping for low light conspicuity
- Removable molded handle
- Four D-rings on top that, in conjunction with the enclosed cord and cord lock, allow for items to be lashed to the top of the lid
- Strong 1680 denier waterproof fabric
- Rain cover and shoulder strap included

Mounting:

- Quick release buckles and J-hooks drop down from the two side pockets for easy mounting
- Unique three-layered hook and loop on all four sides can be used to mount to rear racks for a very strong attachment

Dimensions:

Main Compartment: 10-1/2" Wide, 9-1/2" Tall, 9-1/2" Deep
External Pockets: 7" Wide, 6-1/2" Tall, 1-1/2" Deep

MAR-20RB ..... **20 Liter Rear Bag**

Marsee 45L Cruiser Bar Bar & 50L Zipp Bag

Marsee 45 Liter Cruiser Bar Bag

The Marsee 45 L Cruiser Bar Bag is designed to mount to a sissy bar (backrest) or to strap onto the bike utilizing the hidden quick release buckle straps with J hooks. Made with 1680 denier waterproof fabric, the Cruiser Bar Bag consists of two separate bags and is loaded with pockets for a versatile travel bag.

Mounting system
- Sissy bar system is expandable to fit backrests from 7 to 16 inches
- Padded sissy bar pad offers comfort to rider and/or passenger
- Drop down adjustable quick release buckles with J hooks for additional mounting options and allow the top roll and main compartment to be mounted separately if desired

Bag Features:
- Top Roll bag entry is through waterproof zipper and hook and loop sealed flap
- Main Compartment has a drop down lid with side gussets and additional zippers to open it at a 45-degree angle or open completely to allow full access
- Main Compartment lid has large zippered mesh pocket for storing loose items
- Silver waterproof fabric interior makes dark objects more visible
- Non-slip, non-abrasive material on the bottom of each bag
- Included shoulder strap can be attached with D-rings on either the top roll or main compartment

External Features:
- Five total pockets with reflective fabric and piping to aid visibility in low light conditions
- Adjustable quick release buckles connect the two bags firmly together
- Six D-rings are located on the sides of the bags to allow other items to be attached
- Shoulder straps stored in elastic sleeves on the back of the main compartment allow the bag to function as a backpack
- 1680 denier waterproof fabric used
- Rain cover included
- Overall dimensions: 17" long, 8" wide, 22" high

Visit online to view a video demonstration of this product by designer Rex Marsee!

MAR-45CBB ..... **45L Cruiser Bar Bag**

Marsee 50 Liter Zipp Motorcycle Duffel

This motorcycle duffel bag is no ordinary bag. There are a total of nine storage pockets, four outside and five inside. Three of the four external pockets zip off so you can carry them separately. One zip off bag has brief case capabilities, another bag has tool box capabilities and the third is designed to be a toiletry bag. The bag has six mounting straps for a good, solid mounting and stable ride. The straps hide away into little storage pockets when not in use. The bag can be completely un-zipped for easy packing. Three hooks allow for easy hanging of the bag.

The bag has a heavy duty carry handle and shoulder strap that comes standard. Externally the bag is made of 1050 denier ballistics fabric and has reflective fabric and piping for night time and low level conspicuity. Inside the bag is finished in silver fabric and “see through” mesh fabric. External zippers are tough number 10 coil zippers. Rain cover is included.

Dimensions:
Overall: 18” Long, 11” Wide, 12” Deep
End Pockets: 10” Wide, 8.5” High, 3” Deep
Side Pockets: 14” Wide, 8.5” High, 3” Deep

Marsee Compression Bag

This bag is simply amazing and will reduce the contents to about 40% of its uncompressed size. The bag will compress from 16 inches tall to a very compact 6 inches. **MAR-CB**

Marsee Handle Pocket

This handle pocket attaches to the front of tank bags, onto handlebars or anywhere you need a little extra storage. Connects with hook and loop. Gives easy access to small items, change for toll fees or credit cards. **Dimensions:** 6" x 1" x 2-1'2" **MAR-HANDPKT**

Marsee Quick Clip

Forget dangerous hooks when strapping down your luggage. The patented Quick Clip has no hooks to scratch, cut or otherwise cause damage to your valuables. Maximum weight load is 7 pounds.

Dimensions: Expands from 36" to 58" including hook device.

MAR-QC

Marsee Laptop Briefcase

The Marsee Laptop Briefcase is the perfect laptop case and organizer briefcase. Built to the same high standards as all Marsee Products, this bag works for laptops or as a roomy briefcase. One side holds a laptop and the other holds the Marsee File Cabinet (sold separately) or paperwork and magazines. **MAR-BRIEFCASE**

Marsee 3L Hydration System

Hydration Systems are great add-on options to any tank bag. Large opening mouth allows for an easier refill, plus the ability to use ice. It is also easier to clean. 90 degree bite valve is helpful to use with helmet on. The included retractable lanyard attaches to luggage to keep hydration tube in place and retracts after use.
Dimensions: 7.5" wide x 17" long
MAR-HYD3

Marsee File Cabinet

Keep your paperwork organized and protected with the Marsee File Cabinet. With a sturdy Marsee handle, this bag is ideal for carrying paperwork to and from the office or home. Also works well to slide inside the Marsee Laptop briefcase. Big enough to stow legal size folders with three separate compartments. **MAR-FILE**

Frogg Togg Chilly Pad Cooling Towel

Frogg Toggs' Chilly Pad provides an innovative way to cool down while enduring outdoor heat and/or high levels of physical activity. The Chilly Pad is made from hyper-evaporative material that retains water while remaining dry to the touch. When wet, the towel begins to evaporate and cool, providing cool, soft comfort to the user. When it stops cooling (about 1-4 hours, depending on conditions), you simply re-wet the towel in hot or cold water and ring it out. Within minutes, it's cool again. Size: 27" x 17".

FRT-CP100-47.....**Hi-Viz Yellow Chilly Pad**

Sammy Trail Towel

This super-absorbant drying towel is perfect for motorcyclists! The Sammy Trail Towel is a trail-tested, super soft, super-absorbant compact pack towel. Weighs 1.7oz and packs ultra-small in reusable dry bag. Wet, wring and reuse over and over again. Wipes out trail dust and sweat and won't clump or matt with use. Eco-friendly organic material. Size: 17" x 13".

FRT-SAMMYTT-02.....**Sammy Trail Towel**

H2W Clothes Sacks & Roll Top Sacks

The Helen Twowheels Super Packing System is a waterproof system that is being used by thousands of riders to pack everything they need for a weekend trip or cross-country adventure.

With three main types of bags- the **Roll Top Sack**, **Cord Close Sack** and **Clothes Sack**- plus packing straps & a few accessories- you will have everything you need for your trip!

All of the bags are made of black, high-quality, rugged, waterproof material that is laminated on the inside with a layer of polyvinyl. On the **Clothes Sacks** and **Roll Top Sacks**, all seams are sealed and, once rolled, **both styles of bag are waterproof.** All have the unique reflective, slotted strap the entire length for attachment versatility and only the finest quality nylon hardware. **Made in the USA.**

Visit us online at www.racerpartswholesale.com for complete instructions and a video on how to use this system!

Clothes Sacks

These bags were developed for those people who want the convenience of easy access. They are built to seal like the Roll Top Sack but open the length of the long side so you can get to all those little things in there. They are also waterproof and have double handles. These are compression bags and, although you can fit a lot of stuff in them, they will never pack as tight as the regular Roll Top Sacks. To pack, stuff items into the two ends first (better yet, stuff some mesh insert bags into the ends for easy packing!). Then load the middle. Once packed, close the lips of the bag and roll down three times. Clip the ends and your bag is ready to go!

HTW-410 ..... **Extra Large- 14” x 32”**
HTW-420 ..... **Large- 12” x 26”**
HTW-430 ..... **Medium- 10” x 20”**

Roll Top Sacks

These are the perfect waterproof bags to compress that soft squishy stuff you want to keep dry. If you have sleeping gear, this is the bag for you! To pack, roll up your Thermarest and put it in, then unwind it to the perimeter of the bag so you have a hole in the center. Stuff your loose sleeping bag and other soft items into the center. Then hold the lips of the bag, punch out the air (pictured to the right), roll down at least three times, then clip. This bag also works for clothing and other soft items. Note: dimensions listed are before rolling the bag- you will use at least 6” in height (depending on how many times you roll it) to close the bag.

HTW-210 ..... **Extra Large- 14” x 36”**
HTW-220 ..... **Large- 12” x 32”**
HTW-230 ..... **Medium- 10” x 28”**

H2W Cord Close Sacks, Mesh & Wet Bags

Cord Close Sacks

These bags come in 4 sizes and are the perfect bag for those long hard, potentially wet things like tents and camping chairs. While the fabric of the Cord Close Sacks is waterproof, the end closure is a drawstring with rainfly closure. This allows your potentially damp items, like tent or chair, a little air to breathe. The drawstring and rainfly closure won't put any pressure on the ends of the poles. Extra Large is for that huge tent that people shouldn't be carrying on their motorcycle! Large is perfect for a 4-man Eureka size. Medium is right for most 2-man tents. Small is the bag you want for that folding chair or loose tent poles. To pack a tent, slide your poles in first. Then put your rain fly all the way in the bottom, then follow it with the tent body itself. Finish with the ground cloth. This will allow you to take the items back out of the bag in the order you need them in. For a chair, simply slide it in, pull the cord and slide the cord lock to close the end of the bag (pictured).

HTW-310 ..... **Extra Large- 9” x 35”**
HTW-320 ..... **Large- 8” x 34”**
HTW-330 ..... **Medium- 7” x 26”**
HTW-340 ..... **Small- 5” x 32”**

Mesh Insert Bags

These handy bags are made of sturdy mesh fabric and have a zipper through the center of the bag. The bag diameters are sized to fit in the **Roll Top Bags** (pictured) and the **Clothes Sacks**. They were designed to help you organize your stuff with these “removeable pockets” inside your bags for ease of use.

HTW-610 ..... **Extra Large- 14" x 8"**
HTW-620 ..... **Large- 12" x 8"**
HTW-630 ..... **Medium- 10" x 8"**

Wet Bag

This sturdy mesh bag with top zipper is perfect for drying out wet clothing and is a great place to put the smelly stuff. Put it right on top of the rest of the bags by threading the strap through the bottom side of the bag (right picture). Allow it to flap in the breeze, where it does its job best. Don’t have any wet stuff? Strap on the bag anyway and you’ll always have a place to put newspapers etc. Left picture is of the wet bag on Helen Twowheels Clothes Sack and Roll Top Sack.

HTW-600 ..... **Wet Bag- 21.5” x 14”**

Wet- Dry Combo Bag

Best Seller!

This bag incorporates our popular Wet Bag with a Dry Bag for a versatile addition to any packing system. The wet bag is perfect for wet clothing or towels that you’d like to keep separate from your dry items. The mesh allows the bag to flap in the wind and dry out items as you ride. The dry bag is an easy-access bag that is ideal for a rainsuit, jacket or other layer of clothing that you may need during your trip. Mounts by threading your straps through the slots in the underside of the dry bag. There is no need to loosen your straps to get at your clothing/dry items- simply pull apart the hook and loop closure on the dry bag and unroll. Rolls three times for a waterproof closure. There are two reflective strips on the wet bag and one on the dry bag. For additional visability, order the Wet-Dry Combo Bag with added Yellow Reflectivity.

Dimensions: Dry Bag (rolled closed): 15.5" high x 24.5" wide, Wet Bag: 12" high x 21" wide

HTW-601 ..... **Standard Wet-Dry Combo Bag (top)**
HTW-601Y ..... **Wet-Dry Combo Bag with Added Yellow Reflectivity (bottom)**

H2W Super Pack Straps

Best Seller!

Super Pack Straps

The Super Pack Straps come in a four piece set. These can attach to many points on your bike- the luggage rack, hand rails, subframe or under the passenger seat or top box. They will hold bags on the rear seat or above the saddle bags for 2-up touring.

Benefits of H2W Super Pack Straps:

- No elastic to wear, fray or stretch over time or break while riding
- Made from a thick, heavy strap material
- Plastic hardware to protect you and your bike
- Strapping material will not stretch while riding, so your load remains in place
- Secure d-rings will not loosen or break
- Four strap system allows mounting versatility
- Short straps with d-rings can easily stay on bike when full strap system is not in use
- Replacement d-ring strap pieces or D-ring extenders available

Super Pack Straps

HTW-101 ..... **Red Pack Straps**
HTW-102 ..... **Yellow Pack Straps**
HTW-103 ..... **Blue Pack Straps**
HTW-104 ..... **Black Pack Straps**
HTW-105 ..... **Orange Pack Straps**
HTW-107 ..... **Hot Green Pack Straps**
HTW-108 ..... **Hot Orange Pack Straps**
HTW-109 ..... **Hot Pink Pack Straps**

How to use the Helen Twowheels Super Pack Straps: Once your bags are all packed, it is time to put it all on your bike! The pack straps come in a four piece set- two short, two long. There is a velcro piece on one of the short straps that holds the set together when not in use- when you are ready to use the straps, simply wrap the velcro around itself.

To begin, put each short strap on opposite sides any where around the frame of the bike (put the d-ring end through the built-in loop at the opposite end of the strap). You can use grab rails, luggage rack, seat pan frame or any other place that is easy to reach and is attached firmly to the frame of your bike.

Attach the long straps the same way. Keep the attachments close together, rather than far apart, as this will form a closed circle around your load and hold it more tightly.

Stack your bags and feed the long straps though the webbing slots on each bag as you come to them. Thread the end of the straps through both d-rings on the short straps, then go back over one and under the other (top picture). Then cinch down the straps by pulling down on the strap and up on the tail (bottom picture). Work first one strap, then the other and go back and forth until snug. Don't forget to tuck the loose end under the tight strap so that it doesn't flop around as you ride.

BMW K1200LT Strap

This special version of the Super Pack Straps is designed for the BMW K1200LT, but also will allow many sportbikes without handrails to carry bags on the back seat. It is meant as a long-term mounting option that fits under the passenger seat and is used to attach bags on the rear seat.

Visit www.racerpartswholesale.com for installation instructions.

HTW-1002 ..... **BMW K1200LT Strap**

Box Bags

Use these box bags to help organize your expedition side cases. They are zippered bags with color-coded handles for easy organizing. Available in several sizes with multiple strap colors. We recommend ordering a combination of box bags and lid bags to fit your specific application and packing needs.

Part Number	Size	Dimensions	Strap Color
HTW-510	Large Box Bag	5-1/2” x 9” x 16”	Red
HTW-511	Large Box Bag	5-1/2” x 9” x 16”	Yellow
HTW-512	Large Box Bag	5-1/2” x 9” x 16”	Blue
HTW-513	Large Box Bag	5-1/2” x 9” x 16”	Burgundy
HTW-520	Small Box Bag	1” x 4” x 15-1/2”	Green
HTW-530	Large Lid Bag	2-1/2” x 7” x15-1/2”	Black
HTW-531	Small Lid Bag	2” x 5-1/2” x 15-1/2”	Brown

Tool Roll

An improvement on the standard tool roll. These have a longer flap, a better strap and a special large hook and loop pocket the entire length for loose bolts, wiring diagram, or cleaning rag! Yet they still fit in the space under your seat. (Tools not included.)

HTW-700 .....**Tool Roll**

Tank Panniers

These Tank Panniers are designed to be used on most naked bikes, especially the BMW GS. They have wide adjustable straps to hang off your gas tank, and can be used alone or with your favorite tank bag **(see pages 4- 10 for Marsee Tank Bags)**. The parts that come in contact with your paint are shielded with neoprene. 9"h x 9"w x 6”d

HTW-900.....**Tank Panniers- Pair**

ROK Adjustable Motorcycle Stretch Straps

Designed to fit bike lugs, frames and carry racks, allowing immediate access to your luggage. The core is 100% natural rubber, which offers the best blend of tear resistance and oxidization and extends the working life of the strap. The interlocking buckles last the distance and are gentle on your luggage and motorcycle. Adjustable lengths of 18- 54” caters for the largest range of luggage shapes and sizes. Confidently secure 90 lbs in all weather conditions. Unique closed-end fastening system ensures there are no dangerous steel hooks.

Pack Straps
Adjustable from 12” to 42”. Specifically designed to attach to back packs and secure smaller items without damaging waterproof materials. Quick release buckles ensure fast and quick access to gear. **ROK-00307**

ROK-00307

Red Line Oil for Motorcycles

Red Line Motorcycle Oils

As part of Red Line's Powersports line, these High Performance Motorcycle Oils are fully-synthetic formulas specifically created for the high demands of the latest high-revving four-stroke motocross bikes and ATVs, Sportbikes, and V-Twins.

Motorcycle Oils

RD4-2304 .....**10W30**- For use where this viscosity is specifically recommended, like many Kawasaki KX 250F and various Hondas from 2006-up

RD4-2404 .....**10W40**- For use in many four-stroke motocross and ATV engines, as well as four-cyclinder and V-Twin Sportbikes.

RD4-2504 .....**20W50**- Designed for the latest Big-Twin motorcycle engines that specify 20W50 motor oil, including Evolution, Twin Cam and aftermarket engines of similar design.

RD1-2604 .....**20W60**- Recommended for V-twins that need more viscosity due to operation in extremely hot climates. Also popular for Evos and Twin Cam engines with big bore kits, stroker kits or issues with valvetrain noise.

Suspension Fluids

Superior shear stability over most popular shock oils. Allows use of lower viscosities. Far less shock fade, provides lower operating temps for same viscosity when compared to conventional fluids. Eliminates most foaming and provides excellent seal lubricity. Antiwear additives assist in longer shock life. 16 oz. bottles

RD9-1102 .....**LikeWater**
RD9-1112 .....**ExtraLight 2.5WT** (pictured)
RD9-1122 .....**LightWeight 5WT**
RD9-1132 .....**Medium 10WT**
RD9-1142 .....**HeavyWeight 30WT**

Gear Oils

RD4-2704 .....**80W w/Shockproof**- Popular for Sportster V-Twin transmissions, 65cc, 85cc, 125cc, and 250cc two stroke motocross transmissions, as well as shifter kart gearboxes, and CRF transmission cases. Shockproof features microscopic solid medium to provide cushioning between gear teeth, while maintaining lower drag.

RD4-2804 .....**V-twin w/Shockproof**- For all H-D® trans including the Evolution engines, Twin Cam engines, and latest 6-speed Cruise Drive. This product dampens transmission noise (reducing the notorious shifting clunk found in these gearboxes), dramatically reduces temperature, provides thicker oil films between gear teeth and resists throw-off.

RD4-2904 .....**V-Twin Primary Case**- For 1984-to-present V-Twin American motorcycle engines, including Evolution, Twin Cam, and aftermarket engines of similar design. Improves clutch operation while reducing wear and temperature. This product is for use in the primary chaincase with wet-diaphragm spring clutches.

Fuel System Cleaner

Complete Fuel System Cleaner for Motorcycles. Pour one bottle into a street bike, dirt bike, ATV or PWC for clean-up, to regain lost power and improve fuel economy.
RD6-0102 (4 oz.)

Red Line Oil Powerpacks

These PowerPacks include the Red Line Motorcycle Oils in convenient packages that are complete oil change kits in one box!

RD9-0226 (pictured).....**Big Twin 20W50**- This kit is for Evolution and Twin-Cam engines and includes 5 quarts of 20W50 Motorcycle Oil, 1 quart of V-Twin Transmission Oil with ShockProof, 1 quart of Primary Chain Case Oil, 1 bottle of Fuel Injection Cleaner for Motorcycles, a sticker kit, a Red Line Oil embroidered hat, and a versatile funnel.

RD9-0231 .....**Big Twin 20W60**- This kit is for motorcycles with Flathead, Knucklehead, Shovelhead, Panhead engines (as well as Big Twins operated in hot climates or with wide clearances). Includes 5 quarts of 20W60 Motorcycle Oil, 1 quart of V-Twin Transmission Oil with ShockProof, 1 quart of Primary Chain Case Oil, 1 bottle of Fuel Injection Cleaner for Motorcycles, a sticker kit, a Red Line Oil embroidered hat, and a versatile funnel.

We are one of the largest Red Line Oil distributors in the country and stock Red Line's complete line!

Royal Purple & Lucas Oils for Motorcycles

Royal Purple Synthetic Oils

Royal Purple manufactures high performance lubricants for many applications, including motorcycles. Royal Purple's advanced additive technologies enable its products to outperform leading synthetic and conventional lubricants. These unique chemistries strengthen the base oil for improved performance. They also create an ionic bond that adheres to metal parts for continuous protection.

Royal Purple 20W50 Synthetic Motorcycle Oil

This Royal Purple 20W50 Max-Cycle motor oil is specifically formulated to improve motorcycle engine performance. It features a select synthetic base oil and Royal Purple's proprietary Synerlac additive technology. Max-Cycle provides unparalleled film strength that is up to 400 percent stronger than the leading synthetic and mineral oil.

ROY-01316 .....**20W50 Synthetic Motorcycle Oil**

Royal Purple Max Gear Oil

Royal Purple's Max-Gear is an ultra-tough, high-performance, GL-5 automotive gear oil designed to provide maximum protection to heavily loaded gears, while maximizing power throughout the drivetrain. It outperforms many other oils because it combines the highest quality synthetic oils with Royal Purple's proprietary Synslide additive technology. Max-Gear makes your gears run smoother, quieter, cooler, and longer without overhauls.

Lucas Oil Products

Lucas High-Performance Motorcycle Oils are the result of technology gained through years of blending motor oils and gear oils for the racing, industrial and agricultural industries. Lucas offers a full line of motorcycle oils that far exceed all OEM specifications for the motorcycle and ATV industry. Lucas Motorcycle Oil will lower oil temperature, extend the life of your vital components, reduce noise, reduce leaks and increase performance. On top of all that, it will outlast other oils up to 4 times as long! Lucas Motorcycle oils can be used in any motorcycle or ATV engine, air cooled or water cooled. Give Lucas a try and experience the results for yourself!

Lucas High Performance Motorcycle Oil

Lucas Motorcycle Oil is built for endurance, lasting up to 4 times longer than other brands. It will also lower oil temperatures, extend the life of vital components, reduce noise and leaks, and increase performance. The SAE 20W-50 is also an excellent gear oil and primary oil. The Synthetic SAE 50W was designed specifically for the air-cooled V-twin engines. All Lucas Motorcycle Oils meet JASO specifications. 1 Quart.

LUC-10714 .....**SAE 70 wt.**

Pure Synthetic Gear Oil

Lucas Pure Synthetic Gear Oils are super-slick, long lasting lubricants designed especially for heavy duty or high performance applications where regular gear lubricants just aren't good enough. They contain a special additive package that increases lubricity and insures less gear noise and longer bearing life. Excellent for use in limited slip differentials. Designed to stand up to high temperatures without losing its lubricity. 1 Quart.

Oils & Lubricants for Other Applications

We know you love your motorcycle, but you probably have other vehicles too- from snowmobiles and ATVs to street cars and trucks. Here is just a small sampling of some of the other oils we have in-stock. Visit us online for our complete listing.

Motor Oils

Produced in only one top-of-the-line grade, these products offer the highest quality available on the market today and in the widest variety of viscosity. Fully-synthetic ester formula for passenger cars, light trucks, performance vehicles and marine applications.
Available in many viscosities, including for diesel engines. Visit our Red Line Motor Oil category online or call us for more information.

Automatic Transmission Fluids

With different combinations of viscosity, slipperiness, and OE-recommended additives packages, Red Line offers the widest selection of ATF available.
D4 ATF, **D6 ATF**, **Racing ATF**, **High-Temp ATF**, **C+ ATF**, **Synthetic ATF Available. Call or visit online for additional information.**

Gear Oil For Manual Transmissions

Since most GL-5 gear oils for differentials are too slippery for manual transmissions, Red Line offers these products that ensure proper shifting while providing ultimate wear protection.
MT-85, MT-90, **MTL**, **75W90NS Gear Oils Available.**

Shockproof Gear Oils

Acting like a liquid grease, these unique lubricants contain a suspension of solid microscopic particles as an extreme pressure agent, offering a "best of both worlds" balance of low drag and superior protection for gear teeth.
Heavy Shockproof, **Lightweight Shockproof**, **Superlight Shockproof Available.**

Upper Cylinder Lubricant (Fuel Treatment)

Lucas Upper Cylinder Lubricant & injector Cleaner is formulated for gasoline, diesel and LPG engines. It is a blend of heat resistant, super slick oils and additives that cleans and lubricates the fuel system. It also causes the fuel to burn more efficiently for greater fuel economy. **LUC-10020**

Heavy Duty Oil Stabilizer

Lucas Heavy Duty Oil Stabilizer is the #1 heavy duty and high performance oil supplement in the U.S. It eliminates dry starts and resists thermal breakdown in new engines. It stops smoking, knocking, and oil consumption in worn engines. Use it in any manual trans or differential to stop wear, leaks, heat, noise and hard shifting. It safely blends with all petroleum products, even synthetics. **LUC-10001**

Semi-Synthetic 2-Cycle Oil

This clean burning formulation is smokeless because the “would-be” emissions are burned, thereby increasing performance and fuel economy. No more filter clogging, and longer life! **LUC-10110**

High Performance Pure Synthetic Motor Oil

Lucas High Performance Pure Synthetic motor oils are formulated to provide maximum protection against heat and engine wear while minimizing drag to optimize fuel economy. These one of a kind formulas are the perfect on-track/off-track motor oils.
Many viscosities available. Visit our Lucas Oil Product Category Online for additional info.

Royal Purple Motor Oil

Royal Purple Motor Oil increases horsepower and torque, saves fuels and reduces heat, wear and emissions. It has unsurpassed oxidation stability that allows for extended oil drains and fewer oil changes. Royal Purple's performance advantages come from a blend of synthetic oils plus Royal Purple's proprietary Synerlec technology. Royal Purple Motor Oil is compatible with other mineral and synthetic motor oils.
Many viscosities available. Visit our Royal Purple Oil Product Category Online for additional info.

K&N Oil Filters for Harley Davidson and BMW

K & N oil filters for Powersports are 'TUV' product endorsed and 'TUV' factory production monitored. This means every K&N oil filter equals or exceeds all OEM specifications. These oil filters contain a modern synthetic filter media designed for ultimate flow with less pressure drop, yet they're engineered for outstanding filtration. All K&N oil filter for Powersports that are 'spin-on' feature a heavy-duty metal can with a 17mm nut affixed onto the end, which allows for easy installation and removal. The 17mm nut is crossed-drilled, so racers can safely wire the filter to their bike. So, if you want excellent oil filtration for your bike, these K&N oil filters are what you need.

VAL-71646

Hylomar Gasket Remover

This is the ideal low toxicity product to use prior to the application of any sealant. Gasket remover is used to remove cured Hylomar Universal Blue and also cured Hylomar Anaerobic sealants. Both products are 250ml, with brush top.
HYL-HGR001 .....gasket remover

Track Claw All-Purpose Cleaner and Degreaser

Quick and easy to use, Track Claw All-Purpose Cleaner and Degreaser is chemically designed to remove tar, oil, grease, dirt, rubber and fingerprints from all washable surfaces. It can be used to clean your motorcycle. You'll also find it perfect for cleaning engine parts, sinks, stainless steel, carpet, chrome, shop floors and tile, vinyl and velour upholstry, maintenance equipment and much more!
19-oz. spray can. **T29-50**

Track Claw Racing Polish

Track Claw Racing Polish is the most revolutionary breakthrough in polish technology. It reduces dirt pickup and lowers coefficient of drag. Its unique Fluoropolymer chemistry sets it apart from anything you have ever used, and it's safe on all finishes. It leaves the surface so ultra-slick that it reduces wind drag.
16-oz. bottle. **T29-30**

Race Glaze Polish and Sealant

Race Glaze Polish and Sealant is three products in one bottle! The cleaner removes tars and stains, the micro fine leveling agent levels and removes fine scratches and blemishes on clear coats and the durable, yet breathable, clear poly acrylic protective coating protects against fading, acid rain and harsh airborne pollutants. Fast, easy to use and safe for hand or machine buffing.
RGP-15165

Race Glaze Gloss Highlighter

Race Glaze Gloss Highlighter is formulated to enhance gloss and protection between Race Glaze polishings. It can be used on paint, vinyl trim, plastic, glass or chrome surfaces. Use it regularly to "quick-dust" and give your vehicle a "just-polished" feel and look. No harsh airborne pollutants. Fast, easy to use and safe for hand or machine.
RGP-15200

K & N Air Filter Oil

K & N Air Filter Oil has been specially formulated to work in combination with the cotton fabric in K & N air filter elements, providing a superior air-filtration system. When used as directed, it quickly penetrates the filter pleats, where it remains suspended in the cotton fabric. Saturation is maintained until the element is eventually cleaned with K & N's Air Filter Cleaner and degreaser.

Hylomar Universal Blue

This polyester urethane based sealant is non-setting and non-hardening even at high temperatures. The compound is resistant to all industrial fuels, oils, water, water/glycol and methanol mixtures. Hylomar Universal Blue is effective for the sealing of metal to metal and plastic to plastic surfaces. The temperature range is -60°F to 480°F.
HYL-HUBRA1.....6 oz aerosol
HYL-HUBR2 .....75ml tube

Gel Lube

Sprays on thin and penetrates, but almost instantly turns into a gel that stays put. Works as an assembly lube, but has thousands of other uses. **VAL-71756**

ThreadLockers

These anaerobic compounds lock and seal nuts, bolts, bearings, etc.
VAL-71620 .....Med., 10 ml.
VAL-71621 .....Med., 50 ml.
VAL-71622 .....High, 10 ml.
VAL-71623 .....High, 50 ml.

All-in-One Silicone

Valco has simplified its automotive silicone product line to one premium-grade silicone that does it all. Every color of is low-volatile, oxygen-sensor safe and withstands high temperatures.
VAL-71195.....Aluminum
VAL-71105.....Clear
VAL-71135.....Black

White Lithium Grease®

VAL-795903

Solvent 184™

Removes greases or you can use it as a parts cleaner. Use with HYLOMAR® and HV-350.
VAL-71265

Epoxi-Putty

This is a kneadable, steel-reinforced epoxy putty that cures in minutes. It can be drilled, tapped, filed, etc. and resists temperatures up to 600°F. **VAL-71636**

MPZ Assembly Lube and Cam Lube

Protect and lubricate new and rebuilt engines. It has a "stay-put" action and a natural attraction to metal.
VAL-71753.....12-oz. bottle
VAL-71752.....4-oz. bottle

HV-350™

This is an adhesive and sealant for high-vibration applications. HV-350 is flexible, abrasion resistant, sandable, and paintable. Bonds to glass, wood, plastic, fiberglass, metal, concrete, leather and more.
VAL-71155
VAL-71156 (with tube grip)

Catoma Tents

Catoma Lone Rider Tent

The Lone Rider sets up in 30 seconds using Catoma's patended Speedome system and immediately provides weather protection. With the poles on the outside of the fly and the tent body suspended from it, the inner tent remains dry in inclement weather. The all screen tent body also provides great ventilation. The Lone Rider breaks down as quickly as it sets up and provides a durable and easy to use shelter for any soloist. This tent is truly everything you need in one package.

Features:
- Patented Speedome integrated pole system
- Special 2 wall design that allows for easy, weatherproof setup
- Bathtub floor & taped seams for added waterproofing
- Carry bag features roll down closer on large side of the bag for easy packing
- 2000mm Polyurethane waterproofing
- 2 doors for easy access
- Gear Loft included

Sleeps: 1
Weight: 7 lbs. 4 oz.
Packed Dimensions: 26.5" x 6"
Center Height: 41"

CAT-64596F .....**Lone Rider Tent**
CAT-64596F-GS .....**Lone Rider Ground Sheet**

Catoma 2 Up 2 Motorcycle Tent

The 2-Up 2's patented Speedome integrated frame system makes camping a breeze with easy set up in 60 seconds or less. Modified from the popular 2-Up tent, the new version's ventilation and usable space has been increased by adding a full screen back door with an additional vestibule for your gear. The fly features an improved design to provide better weather protection for the roof vents as well as a dry entry point into the tent in rainy conditions. The 2 Up 2 also features Catoma's Organizer Pockets for all of your internal storage need.

Features:
- Single wall tent with pull out vents for air movement
- 2 doors and 2 vestibules for easy access and lots of storage space
- Gear Loft included
- Special accessory pockets organize all gear inside the tent
- Trail tent carry bag features roll down closer on large side of the bag for easy packing
- 2000mm Polyurethane waterproofing
- Bathtub floor and taped seams for added waterproofing

Sleeps: 2
Weight: 12.5 lbs 5.67 kg
Packed Dimensions: 29.5" x 6" x 6"
Center Height: 56"

Catoma Switchback Tent

Why camp in cramped space when you can have all of the room you need with this durable tent! Featuring Catoma's patented Speedome integrated frame system, the Switchback sets up in 60 seconds with immediate weather protection. Need more space for your gear? The Switchback includes a pull out vestibule with an aluminum pole to give incredible space. The Switchback includes a breathable inner tent and roof vents on the fly for maximum air movement. Catoma's organizer pockets and included gear loft provide ways to store your gear and keep items in the right place for easy use.

Features:
- Extra vestibule space, simply add included aluminum pole
- 2 doors and 2 vestibules for easy access and lots of storage
- Special 2 wall design that allows for easy, weatherproof setup
- Gear Loft included
- Special accessory pockets organize all gear inside the tent
- Carry bag features roll down closer on large side of the bag for easy packing
- 2000mm Polyurethane waterproofing
- Bathtub floor & taped seams for added waterproofing

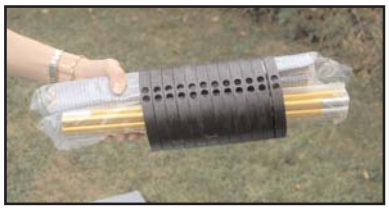
UltraLite Cot

Best Seller!

The UltraLite Cot packs down to 16" long by 5" diameter and weighs less than 3 pounds for big-man 325lb weight rating. Or, if you weigh under 200 lbs, leave two bows at home for a 2 pound cot. No end bars, so tall guys sleep great too. Takes 3 minutes to assemble when totally disassembled for the minimum packed size. Or use the new Fast-Pack method and it goes together in less than a minute. No big muscles needed, kids are strong enough to do it. Quiet sleeping, with no pins, bolts, or rivets to squeek. The UltraLite Cot won't break if overloaded; the fabric top just bottoms out on the ground. You sleep floating above rocks, sticks, roots, water and snow. All materials are impervious to saltwater and sunlight. The 3-layer laminated ripstop fabric won't sag or rot. Sleep cool like a hammock in hot weather or any foam pad on top for winter insulation. The UL Cot can't leak and go flat in the night and it's thicker than any foam pad at 4.5" [12cm]. Set the UL Cot across a slope and sleep great on camp sites that would make you slide off a foam pad. 24" wide by 74" long. Includes a ripstop nylon carry bag. Made in the USA! **RPW-ULC**



UltraPod I

The UltraPod I is designed to be used with point and shoot cameras, digital cameras as well as remote flashes and video lights. The UltraPod is molded from high quality black glass-filled Nylon with aluminum threaded components, ready to provide years of service for the most demanding photographer. The UltraPod can stand on fold-out legs with non-slip feet, or attach to solid objects with the Velcro strap. A unique ball and socket camera mount assembly adjusts to multiple positions quickly and easily. Folds to a compact 4" x 1" x 1.25" package. Weight: 2 oz.

Features:

- Sturdy, durable fold out legs
- Unique ball and socket camera mount assembly for easy adjustment
- Strong Velcro strap for securing to any sturdy object such as tree limbs, railings, pack frames, trekking poles, or even backstop at your little league games
- Folds to 4" length for easy packing

Swedish FireSteel- Scout

Originally developed for the Swedish Department of Defense, Swedish FireSteel is a flash of genius. Its 3,000°C spark makes fire building easy in any weather, at any altitude. Used by a number of armies around the world, Swedish FireSteel's dependability has already made it a favorite of survival experts, hunters, fishermen and campers. It has also found its way into cabins and backyards as a fool-proof way to light stoves and gas-barbecues. It lasts for 3,000 strikes. Weight: 1.1 oz. Color: red.

RPW-700 .....**FireSteel-Scout**

Survival/Rescue Knife

Developed by Tool Logic, the SL3 is a complete survival kit weighing only 2.7 oz. A razor sharp blade with a spear point shape, an all-weather FireSteel fire starter and a loud emergency whistle makes the SL3 the natural choice for all outdoor activities. The locking blade has sufficient curve for most field chores and can be opened and closed with one hand. The 50/50 serrations add utility in both cutting and sawing. The SL3 is not only well thought out, it is rugged enough to live up to its slogan: Built for Life™.

Features:

- Built-in FireSteel fire starter
- 3.1 inch blade, 50/50 serrated
- Spear-tip point
- Emergency whistle
- Lanyard with flourescent clip
- Belt clip

RPW-701.....**Survival/Rescue Knife**

UCO MightLite Compact Lantern and Torch

Our new MightyLites offer a lot of light in a small package. With a 0.5 watt Nichia LED, they provide 26 lumens of light with a long-lasting LED bulb. This one-piece flashlight with an aluminum housing, converts into a lantern with a simple pull. The torch position focuses the beam of light, while the lantern position allows the light to spread for enclosed situations. The Mini version, perfect for travel and emergencies, is 2.5 oz. (with battery). The XL version burns for 22+ hours, and is perfect for outdoors and camping. Use it as your primary source of light or to keep packed in case of emergencies.

MightyLite Mini Features:
- Weighs 2.5 oz with batteries
- Uses 1 AA battery (Duracell included)
- 3.75" x 1" (4.75" long when opened)
- Carabiner and Carrying Strap included
- Burns 5-12 Hours
- Water Resistant
- Color: Red

RPW-500 .....**MightyLite Mini**

MightyLite XL Features:
- Weighs 3.8 oz with batteries
- Uses 3 AAA batteries (Duracells included)
- 4" x 1.25" (5" long when opened)
- Carabiner and Carrying Strap included
- Burns 22+ Hours
- Water Resistant
- Color: Blue

RPW-501 .....**MightyLite XL**

The Mini Lantern

The design of the Mini Lantern does a superb job of utilizing readily available "tealight" tub candles and expanding its capabilities to include outdoor recreation and wider use around the home. Made to the same high standards as the Original Candle Lantern, the patented Mini Lantern features aluminum construction, a glass chimney and a unique candle holder that keeps the tealight candle stable. A specially designed vent in the base of the lantern provides cool air to supply the flame with needed oxygen.

Features:
- Carrying Handle and Hanging Bail
- Aluminum Construction
- Polished Aluminum Finish
- Wind Resistant Glass Chimney
- Candle: Tealight Tub Candle (4-5 hour burn)
- Twist Lock Base
- Made in the USA

Specs:
- Dimensions: 4" High x 2.5" Diameter.
- Weight: 3.5 oz

RPW-100 .....**Mini Lantern**
RPW-1001.....**6 Pack Tealights**

The Original Candle Lantern

This is the classic, long-burning collapsible Candle Lantern that has provided warm natural light to thousands of outdoor enthusiasts for decades. It is perfectly suited to backpacking, mountaineering, snow camping and similar outdoor pursuits. The Original Candle Lantern utilizes one UCO 9-hour candle, surrounding it in the safest, most efficient lantern housing available anywhere. The lightweight aluminum frame holds the glass chimney securely in place, creating a windproof environment for the flame. And the unique Easy-Slide chimney allows the glass to slide down into the lantern, making the candle easier than ever to light. The spring powered candle tube pushes the candle up as it burns, keeping the flame burning at a constant height. A viewing slot on the side of the lantern allows the user to monitor the slow burning candle for remaining burn time.

Features:
- Carrying Handle/Hanging Bail
- Easy-Slide Glass Chimney
- Candle: UCO 9-hour or Citronella
- Polished Aluminum Finish
- Spring Loaded Candle Tube
- Aluminum Construction
- Twist Lock Base
- Candle Viewing Slot

Specs:
- 6.5" High (closes to 4.25")
- Weight: 6.4 oz.

RPW-200 .....**Original Candle Lantern**
RPW-2001.....**3-Pack of 9-Hour Candles**
RPW-2002 .....**3-Pack of Citronella Candles**

Using Candle Lanterns in Tents

The image of a glowing tent in the wilderness night is an appealing one. With a little common sense a UCO Candle Lantern is as safe in a tent as other light sources, and much more appealing and economical. A Candle Lantern produces warmth in a tent while reducing condensation- try that with a headlamp! Always ventilate the tent adequately, keep the heat shield away from tent walls, and keep burning candle within sight. The result is a warm tent, plenty of light to read by, and your headlamp's batteries are preserved for those times when you really need them.

Two Wheel Journal

A book called "Two Wheel Journal" is designed to be a road trip and garage companion for beginner and seasoned motorcyclists. The journal provides a single place to record and store valuable safety and travel information along with motorcycle maintenance history, pre-ride checklist, fuel history, tire history journal, contacts and medical information. Journal entry pages are included for riders who like to keep records and notes about their road trips.

JetBoil Cooking System & Butler Maps

JetBoil Flash Cooking System

Flash™ adds more enjoyment to your favorite outdoor adventure. Like all of Jetboil's innovative systems, Flash is an all-in-one design, combining burner and cooking vessel in one compact unit. Everything you need is stacked and stored inside the 1.0 liter cooking cup. The system lights with the click of a button and within two minutes provides two cups of boiling water for cocoa, coffee, instant soup or a gourmet freeze-dried meal. The newly designed burner secures the igniter, protecting it from bumps along the road. The cooking cup clips onto the burner, preventing accidental spills, and the fuel canister tripod ensures overall stability. The insulating cozy has a color-changing heat indicator that signals when contents are hot.

Features:

- 1.0 Liter FluxRing® cooking cup with insulating cozy, featuring Flash color-change heat indicator
- Adjustable stainless steel burner with push-button "through-cup" igniter
- Drink-through lid and insulating bottom cover/measuring cup
- Tripod base for added stability

Specs:

- Weight (without stabilizer) 14 oz (397 g)
- Volume 32 oz (1 Liter)
- Boil Time 16 oz (1/2 Liter) = 2 minutes
- Water Boiled 12 Liters per 100g Jetpower canister
- Dimensions 4.1" x 7.1" (104 mm x 180 mm)

Raincoat® Advanced Water Repellent Coating

Water on plastic lenses, windshields or faceshields can destroy your vision. Easy to apply and long lasting, Raincoat® repels water by beading up the drops. Raincoat® has a special wax blend that is suspended in a volatile oil. These waxes are hydrophobic and repel water by beading up the drops. Because those beads of water have less contact with your plastic optics, the larger ones run off with gravity or the wind. The remaining water will appear as smaller and more rounded droplets rather than a smear that distorts your vision. Each pouch will coat about 8 sq. ft, which is many faceshields or goggles/glasses.

AIRHAWK Motorcycle Seat Cushions

The last mile feels like the first, thanks to AIRHAWK's® exclusive Shape Fitting Technology®. Patented system eliminates painful pressure points and promotes consistent blood flow for a longer, more comfortable ride. And it's fully customizable and portable – use it on any bike, for any rider. Every AIRHAWK motorcycle seat cushion is handcrafted from soft, pliable, non-hardening neoprene and features a breathable, stretchable outer cover with a non-skid bottom, as well as tie-down straps. It'll stay where you put it. Open mesh side panels allow air to circulate between the air cells and out the side of the cushion, reducing heat build-up and keeping you cool and dry. The cushion is waterproof, and the cover material is made of quick-dry material, just in case it gets rained on. Small-interconnected air cells evenly distribute your weight and pressure over the whole cushion, reducing the "hot spots" that cause pain. The air cells also work as mini shock absorbers, reducing vibration. Once you've tried it, you won't ride without it. 2-Year Limited Warranty.
Seating system comes standard with cover, attachment loops and cruiser straps.

AIRHAWK 2 Motorcycle Seat Cushions

AIRHAWK 2 cushions have many of the same features as the original AIRHAWK cushions, however they are designed for intermediate riders that ride short to mid-range distances. The main difference is the material: the AIRHAWK 2 is made of polyurethane, which is lighter, thinner and does not stretch as much as the neoprene in the original AIRHAWK cushions. Cushion comes standard with cover, attachment loops, and cruiser straps. 1-Year Limited Warranty on Cushion. 6 Month Limited Warranty on Cushion Cover.

BeadRider Seats

Until they try a seat made of wooden beads, most people do not believe they can be comfortable. BeadRiders allow air to flow between the rider and the saddle, keeping you dryer and cooler. If you really want proof of the airflow, just use a set of BeadRiders on a cool day, and it won't take long to convince you that cold air is flowing beneath you. Beaded seats also allow for the dispersion of your pressure points over a larger area. Your comfort level while riding in the rain is helped by a set of BeadRiders. The seat allows you to stay high and dry, while water drains through the seat below you, instead of pooling underneath you. Available in two different materials- the traditional wooden beads (Original BeadRider Seat) or reinforced ceramic composite beads (Ultimate BeadRider Seat). If you are unsure what size you need, **please visit www.racerpartswholesale.com for an application guide.**

Street Rocket Gloves

Full grain goatskin leather over a spandex body for mobility, comfort and durability. Double-stitched leather runs from below the knuckles all the way up the fingers, covering an embedded, high-impact polymer knuckle cage and knuckle caps at each knuckle, providing full armor for ultimate protection. Knuckle cage is constructed to ride with the motion of the hand and "tip when you grip". Embedded GPact gel pads relieve stress and absorb shock and impact where the fingers meet the hand and protects from "finger tingle". Leather ulna pad protects wrist bone. Ergonomically constructed inset thumb and precurve mimic the natural shape of the hand when gripping handlebars. No fabric bulk in fingertips.

Features:
- Fully armored glove
- GPact gel palm pads
- Ergonomic design
- Anti-fatigue
- Four- point fingertip construction
- High impact knuckle protection
- Complete hand coverage
- Serious protection for serious riders

CHA-65484 .....**Street Rocket Gloves- Medium/ Large**
CHA-65487 .....**Street Rocket Gloves- Large/ Extra Large**

Street Classic Gloves

Street classics adapt the proven ergonomic design of the popular Street Ride Gloves to a comfortable, fingerless summer style. Constructed of full-grain, top quality leather, the Classic features an inset, Bolton-cut thumb, long-lasting double stitching at wear points, and comfortable padding across the palm and base of the fingers. Pads are securely stitched at strategic points to reduce bulk and allow the hand to curve comfortably around handlebars. Embossed leather wrist strap fastens with hook-and-loop to keep dirt and debris out, while keeping the glove in place. A comfortable warm-weather alternative to full-fingered biker's gloves, Street Classics provide a more secure grip, plus shock and impact protection from prolonged contact stress.

Features:
- Full Leather
- GPact gel palm pads
- Ergonomic design
- Tab-closure cuff
- Easy-off finger pulls
- Bolton-cut thumb
- Colorfast

CHA-65450 .....**Street Classic Gloves- Medium/ Large**
CHA-65454 .....**Street Classic Gloves- Large/ Extra Large**

Street Cruiser Gloves

Ultimate comfort and rugged durability in a classic goatskin bikers' glove. Ergonomically tailored for comfortable fit over extended rides. High-impact polymer knuckle cage and interior protective caps over first finger joint. Embedded GPact gel pads relieve contact stress where the fingers meet the palm and the hand meets the handlebars. Secure wrist tab closure strategically positioned opposite the thumb keeps out wind. Longer length cuff covers arm up to long-sleeved shirt or jacket. Ergonomic construction mimics the natural shape of the hand when gripping handlebars. Four-point fingertip construction eliminates excess fabric bulk in fingertips, for a smooth, non-irritating fit all day long.

Features:
- GPact gel palm pads
- Ergonomic design
- Tab-closure cuff
- High impact knuckle cage
- Finger joint impact protection
- Reinforced thumb saddle
- 100% color fast leather shell, sidewalls and fourchettes

CHA-65466.....**Street Cruiser Gloves- Medium/ Large**
CHA-65470 .....**Street Cruiser Gloves- Large/ Extra Large**

Street Ride Gloves

Made of full-grain, top quality leather, the Ride takes the traditional biker's glove to a new level with the added benefits of safe and comfortable ergonomic design. Leather sidewalls and fourchettes between the fingers create a "3-d" glove designed to fit comfortably on hands gripping handlebars. Pre-curved shaping and an inset, Bolton-cut thumb accomodate the hand without bunching, blousing or binding across the palm or thumb saddle. Shirred elastic gathers at wrist keeps dirt and debris out, and allow for fast donning and removal. The adjustable wrist strap secures glove in place. Extra long cuff covers the wrist and arm to the cuff of a long-sleeved shirt or jacket. Exclusive Gpact palm pad hinged where the fingers meet the hand provides shock and impact protection where it's needed.

Features:
- Full Leather
- GPact gel palm pads
- Ergonomic design
- Longer cuff
- Inset thumb
- Leather sidewalls
- Adjustable wind strap

Tire Pressure Gauges & Monitors

TireGard Motorcycle Tire Pressure Monitors

When riding your motorcycle, do you ever wonder if your tires are set at the correct PSI to maximize your riding experience? The TireGard Tire Pressure Monitoring System by Big Bike Parts is designed specifically to support your tires and maximize your riding experience. Completely wireless with unique valve cap sensors for real time monitoring, it is also compact and lightweight. TireGard comes equipped with a User-Friendly Graphic Interface that enables the rider to easily understand and maintain the motorcycle in safe condition. TireGard is fully adjustable to fit your riding style and comes with an anti-theft option. TireGard helps maximize fuel efficiency and safety by eliminating riding on under-inflated tires. Installation is a breeze and does not require tire removal. Simply remove OEM valve cap (if you have rubber valve stems, we recommend replacing them with steel valve stems) and replace with the included valve cap sensor, turn on the handheld monitor and ride. Don't wait, get one on your motorcycle today and never wonder about your tire pressure again!

BBP-13-315 .....**Tire Pressure Monitor for Bike (2 sensors)**

BBP-13-317 ..**Tire Pressure Monitor for Bike & Trailer (4 sensors)**

Programmable Tire Gauge

Features:

- Programmable to show the recommended front and rear tire pressures. A quick press on the tire stem displays the pressure on a bright blue background.
- The 90 degree tip is rotatable allowing for right or left handed operation and will fit in the tightest spots. Even a handy light is built-in for nighttime valve stem illumination.
- This gauge is optimized for motorcycles—yet it works great on auto, truck and bicycle tires too!
- Double-Bridge smart-chip micro-processor- Compensates for ambient temperature, humidity and altitude variation. Provides extremely accurate readings!
- Auto on/off and an easy-to-read, large digital display makes this gauge the ultimate no-fuss tool. It's accurate to within ± 1% and measures 5.0- 99.5 psi in half-pound increments

RGR-TG101 .....**Programmable Tire Gauge**

Ready to Go Tire Gauge

- Functional- 90° valve fits in the tightest spots.
- LCD Readout- The easy-to-read display measures 5.0-99.5 PSI in half pound increments.
- Double-Bridge smart-chip micro-processor- Compensates for ambient temperature, humidity and altitude variation. Provides extremely accurate readings!
- Valve Depressor- Built-in depressor is a twist of the wrist away for quick air adjustments.
- Tread Depth Gauge- Retractable measurement tool allows for tire life calculation and replacement assessment.
- Carrying Case- Durable carrier protects the gauge in a toolbox or while on the road.

RGR-TG102 .....**Ready To Go Tire Gauge**

Tire Gauges

Deluxe Tire Gauge- Our deluxe high-accuracy gauge comes with a large psi-scale and a 2-1/2-inch face for quick, error-free readings. It has a special shock-resistant rubber gauge protector & an extra-long, 14-inch swivel hose. It has a super-quick bleed valve. It's simply the best! Available in the following ranges 0-60 PSI, 0-60 PSI Liquid Filled and 0-100 PSI. **RPW-S**

Standard 0-60 psi Tire Gauge- Same as the deluxe tire gauge, however the hose whip is replaced with a straight, 14-in flexible hose with non-swivel chuck. **RPW-B60**

Complete Tire Gauge w/Hold Feature- Our complete tire gauge features a high flow pressure release button and swivel chuck. Made with a straight, 14-in. flexible hose, this gauge holds pressure until released. Available ranges: 0-15 PSI, 0-30 PSI, 0-60 PSI and 0-100 PSI. **RPW-S-H**

Standard Digital Tire Gauge

- 0 to 100 psi
- reads to 1/2 lb.
- Air pressure release button
- External gauge bumper
- Ultra flexible 14-inch line

LAR-50348

Longacre Glow-in-the-Dark Tire Gauge

- 0 to 60 psi by 1 lb.
- Air pressure release button
- Internal gauge damper for more accurate readings and longer life
- 2" dial face. Ultra flexible 14" hose

LAR-50401

Hi-Tec Digital Tire Gauge

The tool of choice for anyone who is serious about proper maintenance, performance, safety and tire longevity.

Features:

- Functional- 90° valve fits in the tightest spots.
- Speaker and LCD Readout- Built-in speaker clearly states the reading. The easy-to-read display measures 5.0- 99.5 PSI in half pound increments.
- Ergonomic Shape- Scientifically designed contours provide a solid and comfortable fit in your hand.
- Hi-Grip Rubberized Texture- Non-Slip surface provides precise handling and feel.
- Double-Bridge smart-chip micro-processor- Compensates for ambient temperature, humidity and altitude variation. Provides extremely accurate readings!

Tire Repair Kits & BestRest Cycle Pump

Stop & Go Motorcycle & ATV Tire Repair Kit- Tube & Tubeless

This assortment of patches and plugs provides you with the tools & materials needed to repair and re-inflate your tire on the spot. The enclosed Rasp and Split-Eye Tool allows you to plug your tubeless tire on the wheel. No bending or twisting is necessary. You simply push the plug straight into the puncture and pull the tool straight out. A twist of the Rasp tool inserted in the needle eye releases the plug. A valve cap/core remover and replacement core is included to insure that the re-inflation process goes well. Even a towel with waterless hand cleaner is included in this vinyl zippered pouch measuring 5" x 7 1/2" x 1" and weighing only 1 lb. This kit also features (4) CO_2 canisters and adapter.

SNG-1066.....**Tire Repair Kit**
SNG-1091.....**3 Extra Canisters**

Stop & Go Pocket Tire Plugger Plus 4 CO_2 inflators 16 Gram

Why be stranded? This kit gives you the ability to perform the most effective repair possible without dismounting your tubeless tire. With the addition of (4) 16 gram canisters of 100% pure high velocity CO_2 gas and the 4" fully flexible adapter with solid brass fittings, this kit becomes everything needed to repair and re-inflate your tire. This kit measures 5" x & 7-1/2" x 1" and weighs only 18 ounces.

SNG-1001.....**Tire Plugger Plus 4 Canisters**
SNG-1091.....**3 Extra Canisters**

Stop & Go Pocket Tire Plugger- Tubeless

This revolutionary new device easily installs mushroom shaped rubber plugs into all tubeless tires while staying on the wheel. The Plugging device 'drives' the plug into the hole with a turning of the hex wrench. The plug expands under pressure to fill the punctured area. A firm pull on the stem with your pliers seats the mushroom head on the inner wall allowing no air to escape. This technology insures maximum reliability while reducing your downtime in any situation.

SNG-1000.....**Tire Plugger- Tubeless**

BestRest Tire Iron Bead BreakR

The BeadBrakR is a levering device that incorporates a trio of tire irons into the actual mechanical design. When the bead is free, you break down the device and use those same tire irons to remove the tire from the rim. Compact, lightweight, and easy to assemble using quick release ring pins, the entire kit fits in your hand and rolls up nicely in the storage pouch. Overall size of the BeadBrakR and all the accessories is just 2" thick x 5.5" wide x 12" long! **BR-TIBB**

BestRest Cycle Pump Adventure Model

At last there's an EASY way to fill a flat tire or adjust your tire pressure on the road! The CyclePump uses a powerful 12 volt electric motor and a high quality metal compressor assembly that's specially hardened for motorcycle applications. The CyclePump is proudly made in the USA from precision crafted aircraft-grade aluminum alloys. The aluminum case is less than 2" high x 4" wide x 6" long. With all the wires and power connectors and hose the storage pouch dimensions are 2" x 6" x 9". Weight is 34 ounces.

BR-CP-A

Stop & Go Mini Air Compressor

This 12V air compressor measures only 4"x 2" x 6" making it possible to be carried on virtually any motorcycle, scooter or ATV. The built in gauge reads up to 120 psi and it comes with a built in LED light. Includes 4" tire valve hose, 66" power cord, 12" extension alligator clips, 36" extension lighter adapter and rugged zipper carry case. Your motorcycle tire will be fully inflated in less than 10 minutes! Weight: 14 oz.

SNG-RCP.....**Stop & Go Mini Air Compressor**

BestRest Oil Jug Triple Pack

Carrying a standard 1-quart plastic oil container on your bike wastes precious space. OilJug™ is the answer. These compact high density polyethylene jugs comply with FDA regulations and they're ideal for transporting, storing or packaging a wide variety of products, including oils. They can be filled with your favorite lubricant or other liquid and reused hundreds of times. The Triple Pack includes 1 each of a 4 oz, 8 oz, and 16 oz jug. **BR-OJ3**

Covers, Turntables & Flash2Pass

SafeTkick Sidestand Pad

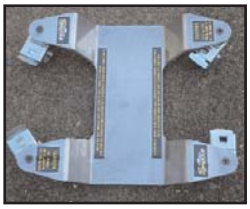
Nothing is worse than putting your sidestand down and having it sink into soft soil or asphalt. For years, the solution has been everything from flattened drink cans to purpose made plastic pads with retrieval strings attached. The challenge has been using your toe to slide the pad under the sidestand foot without dropping the bike. This can be quite a dance if done on loose gravel or wet slippery grass. The guys at SafeTkick have come up with a unique product that ends this problem forever. The SafeTkick pad has a telescoping handle with a bright orange knob. When parking, just pull the SafeTkick pad out of your tankbag or glovebox, extend the handle and simply place under the sidestand foot. The orange knob even provides a bit of a buffer zone to pedestrians. When it's time to go, hop on your bike, grab the handle, pick it up, collapse the handle, store and go. It is just over 4" x 6" in size. **SAF-KICK**

Turn-A-Bike ST Motorcycle Turntable

The TAB ST low friction turntable allows the motorcycle to pivot easily on its center stand. Don't risk backing out on a busy street! Don't ruin your floor by dragging your bike around on the center stand. Protect your investment from excess stress dragging around on the center stand. This portable turntable solves both of these issues. When positioned on the Turn A Bike, the center stand rides on the turntable's top plate with no more stress than if it were simply parked.

TAB-30101 .....**TAB ST Motorcycle Turntable**

Turn-A-Bike Center Stand Dolly



Garage too small? Saddle up and park your bike anywhere you want it.

- Built for motorcycles weighing up to 950 pounds
- Constructed of structural aluminum
- Three inch medical grade locking casters
- Weighs only 13 pounds
- Easy to use
- Non-marring on your garage or recreation room floor
- Rotate in place - Swing to store

TAB-30185.....**Center Stand Dolly**

The Lid From Kid Helmet Organizer

Offers a great place to protect, store and ventilate your helmet and gear. Mount it in your home, garage or trailer for safe transport of your helmet. Your helmet can be strapped to the Lid From Kid for added security. It allows your helmet proper ventilation and safety from unwanted handling while displaying your helmet and gear.

Motorcycle Covers

The Classic Series line of motorcycle covers offers exceptional value without compromising the features you have come to expect from UltraGard®. Whether you need to cover a large touring, cruiser or a street bike, the Classic Series is a great value without compromising on quality, fitment or style.

BBP-4-443BC

BBP-4-491BC

Features:

- Tailor fit designs take into account the natural stance of your motorcycle.
- Water resistant polyurethane coated polyester, protects against weather, dirt and pollution.
- UV stabilized to maximize fabric life and minimize color fading from sun exposure.
- Scorch resistant heat shield protects the cover from hot exhaust pipes and allows use of cover immediately after riding.
- Double stitched, four fold interlocking seams to provide the best durability and a water tight closure.
- Zippered windshield and sissy bar pockets on cruiser covers expand to fit many bike configurations.
- SoftTek windshield liner to prevent scratching.
- Sewn elastic hem and bungee cord ensures a tight custom fit.
- Convenient and compact storage pouch is easily portable.
- Five year warranty.

Flash2Pass Garage Door Transmitter/Receiver

Flash2Pass electronically integrates the activation of your garage door opener remote into the high beam switch of your turn signal lever. This unit eliminates the need to shove your garage door remote into your tank bag or coat pocket while on your bike! The Flash2Pass™ transmitter and receiver are packaged as a set that is pre-programmed at the factory (or you can purchase them separately if needed). The Transmitter is a radio frequency device that is mounted out of the way on your bike. It is relatively small (approximately 2" x 2" x ¾") and is attached out of the way on a bike with either the enclosed screws, or the plastic zip tie. The wires are attached with Posi-Tap™ connectors to the headlight high beam positive wire and to the ground wire. The Flash2Pass™ transmitter is non-polarized so you can attach either wire to the headlight wires.

Anti-Slip Material

- High-traction grit surface
- Keep your feet from slipping off pedals or footpegs
- Adhesive backed
- 12-inches wide, sold by the foot

RPW-3200

Robic SC 507 Stopwatch

- Electroluminescent (EL) backlight illuminates entire display, on demand
- Lap, split or single-event timing
- 1/1000-second precision to 24 hours
- Shows current running lap or split times
- Extra large display with large numbers

RPW-SC507

Safety Wire Drill Fixture

Hardened drill guide locks your bolt in place while you drill a hole for safety wire. Accepts hex-head, 12-point and sock-ethead-cap bolt sizes #10 through 5/8". **RPW-9508**

Safety Wire Twisters

Make your job of safety wiring much easier with these high-quality safety-wire twisters. Available in either a 6" or 9" version with an automatic spring return.

RPW-SW6 .....6" safety wire twisters
RPW-SW9 .....9" safety wire twisters

Safety Wire

Safety wiring remains the most positive and assured method of securing critical fasteners that must not be allowed to back out; any tendency of the fastener to loosen is counteracted by the tightening of the safety wire. Comes in 1-lb., tangle-resistant dispensers.

RPW-SW20 .....020 safety wire
RPW-SW32 .....032 safety wire
RPW-SW41 .....041 safety wire

Safety Wire Kit

Buy the complete kit and save! Kit includes one spool each of .020, .032, .041 safety wire; safety wire twister pliers; drill fixture and storage box. **RPW-SWKIT**

TIRELIEFS™ Tire Pressure Relief Valves

- 3- 38 psi range
- Automatically relieves tire pressure
- Lightweight aluminum- only 9 grams- won't affect wheel balance.

LAR-50000 .....set of 4

Dial Tread-Depth Gauge

Our dial tread-depth gauge is super-accurate! It's calibrated in 1/32-inch increments. It's accurate to 1/128th of an inch (that's less than 0.010 of an inch!) It's easy to read, easy to use and it comes with its own padded pouch. **LAR-50560**

Valve Core Stem Tool

- Conveniently stores valve cores in the handle
- Durable aluminum with stainless steel tip
- Includes 3 spare cores.

LAR-50270

Jiffy-tite Quick-Connect Fluid Fittings

Best Seller!

Jiffy-tite's revolutionary quick-connect fluid fittings provide unsuprassed performance under extreme conditions. These **all-metal** fittings easily disconnect and connect by hand in seconds! Made of lightweight, high quality aircraft aluminum, brass valves and stainless steel ball bearings, they are corrosion resistant for extra long life. Because of this unique design, there are no servicable parts and you will never need to re-build or replace these fittings. Perfect for fuel lines, they have a 100% leak proof seal once disconnected. The fittings will work with any style hose except Teflon.

This is a perfect replacement for BMW's problematic OEM quick disconnects.
The 21505E is a 90° socket that has been used on the LT models. How you choose to do the install will determine whether a straight or 90° is needed. Purchase fittings separately or purchase one of our kits, which include fuel injection rated hose clamps.

JIF-21505.....5/16" Straight- Socket Assembly, Barbed End
JIF-21505E .....5/16" 90° Elbow- Socket Assembly, Barbed End
JIF-22505.....5/16" Plug, Barbed End
JIF-QD1 .....Straight Kit- 2 straight sockets, 2 plugs and 4 fuel injection rated hose clamps
JIF-QD2 .....90° Kit- 2 90° elbow sockets, 2 plugs and 4 fuel injection rated hose clamps

Speed Bleeder®

Bleeding your brake or clutch line has never been easier or simpler! Revolutionary double patented Speed Bleeder replaces the original bleeder valve in your caliper/wheel cylinder with a spring loaded one way ball and check valve design. The uniqueness of the stainless steel check ball is that it opens to allow the old fluid and air out, then closes automatically between pumps preventing the old fluid and air from re-entering the line.

Visit www.racerpartswholesale.com for a complete application guide.

Standard Hyper-Lite Brake Light Kit

These legendary Hyper-Lites superbright LED brake lights completely encased in epoxy wrapped in textured black ABS are more than just "weather resistant"- they run in rain, snow, heat and cold. Our brake light intensity level was chosen to be bright enough to be hugely effective, but not blinding or prone to induce road rage. Hyper-Lites are the original and patented LED flashing motorcycle brake lights. All flashing Hyper-Lite kits can be installed to flash continuously about three times per second when braking or to flash for 5 seconds then go solid. Select between 8 LEDs per light or 16 LEDs per light.

HYP-HLUNIV .....8 LEDs per light (16 total)
HYP-HLU32 .....16 LEDs per light (32 total)

Dual-Function Hyper-Lite Brake Light Kit

This kit features running lights at a reduced (30%) intensity and full intensity brake lights. Although the running lights are only 30% as bright as our brake lights, they are still up to twice as bright as OEM running lights and won't fade in bright sunlight. Some motorcyclists are uncomfortable with the startling nature of flashing brake lights, so we introduced modulators. They fluctuate between high (brake light) intensity and low (running light) intensity rather than flashing on and off. Still very effective, they are somewhat less noticable than flashing brake lights. Can be configured as constant modulating or 5 second modulating then solid. Select between 8 LEDs per light or 16 LEDs per light.

HYP-DFUNIV .....8 LEDs per light (16 total)
HYP-DFU32 .....16 LEDs per light (32 total)

On/Off/On Switch

This 6 amp switch has a single power in and two power out. The LED is lit when either circuit is on. This switch is included in the Hyper-White Running Lights/Modulating Running Light Combination Set. **HYP-TOGLED3**

Hyper-White Running Lights/Modulating Running Light Combination

In addition to two 16 LED white running lights, this set also includes an on/off/on switch with LED indicator, a dual function controller with modulating and full intensity solid circuits, 5 feet each of extra power and ground wires, and the Posi-Tap and Posi-Twist connectors needed to install. **HYP-MDFW16**

Motolights

Motolights are designed as additional lighting in conjunction with the OEM headlamp of the motorcycle. In daytime, they create 2 additional distinct points of light (not unlike the ditch lights required on locomotives) to increase the conspicuity of the motorcycle to other vehicles. The OEM headlamp will light the outside of the corner (where you don't want to go) while the Motolights light the path you are following through a corner. They use MR16 halogen lamps, 35watt, with an 8-degree beam spread (among the narrowest spots in MR16 lamps) made by one of the premier lighting manufacturers. Motolights offers free lamp replacement to the original purchaser. The housings are cast aluminum, CNC machined, and come in brushed, black powder coated, polished or chrome finish. Brackets are machined from 6061-T6. Mounting brackets are precision machined from aircraft grade aluminum and are specifically designed to be mounted on the motorcycles caliper. The kit comes complete with all necessary hardware, cable ties, hex head wrench, 3M inline wire tap, illustrated instructions and an 800 phone number if you have problems. Each set is covered by a lifetime warranty to the original purchaser as well as free bulb replacement. There is also a 30-day refund if not completely satisfied. Motolights makes this guarantee because their lights don't come back.

Motolight is built to be the best!

Hyper-White Running Lights

Looking for a way to make oncoming drivers notice you without tying up your headlights? This is it! The Hyper-White running lights feature a pair of White 16 LED modules that put out 55,000 mcd each and an on/off switch with LED indicator. Oncoming drivers see super high output running lights. Your charging system sees a paltry 260 mA current draw at 13.9 volts. These lights do not take the place of your driving lights, but are hugely effective at alerting oncoming traffic of your presence. They DO NOT project a useable volume of light on the road. **HYP-NFWRUN16**

Posi Products & Weather Pack Connectors

Posi-Lock Connectors have been put the to test worldwide since 1997. Superior in-line splices with just hand tightening! These electrical connectors are crimp in-line splices. An electrical connector that meets the needs of todays OEM's, and is so good, it's reusable. Truly a connector for the 21st century. Temperature Range is -23ºC to 120ºC.

- 14 and 16 gauge wires.
- Diameter: 7.16 mm Length: 27.4 mm
- Max. Insulation Diameter:3.7 mm

POS-PL1416 .....**Package of 5**

Posi-Lock 18-24 Gauge

Posi-Lock PL1824 Red.
- 18, 20, 22, 24 gauge wires.
- Diameter: 7.16 mm Length: 27 mm
- Max. Insulation Diameter:3.2 mm

POS-PL1824 .....**Package of 5**

Posi-Lock Flat Fuseholder

Incorporates the Posi-Lock® system. No crimping required. Stranded wire connects directly to fuseholder. 30 AMP max / 12-18 Gauge. DC Stranded Wire Application. Sold individually. Fuse not included. **POS-FF1218**

Posi-Tap connectors allows you to tap into wires without cutting! It installs in seconds by hand, with no crimping or tools required. Total wire integrity is maintained and it powers up to 4 leads at once. It has less resistance, is vibration proof and fully insulated.

Posi-Tap 10-12 Gauge Wire

- Powers (1) 10 or 12 gauge accessory leads.
- Max Accessory OD .205" (5.2 mm)
- Max Tap OD .145" (3.7mm) 12 ga, Min Tap OD .085" (2.18mm)

POS-PT1012Y.....**Package of 5**

Posi-Tap 12-18 Gauge Wire

- Powers (1) 12, (2) 14, (3) 16 or (4) 18 gauge accessory leads
- Max Accessory OD .205" (5.2 mm)
- Max Tap OD .145" (3.7mm) 12 ga, Min Tap OD .085" (2.18mm)

POS-PT1218B.....**Package of 5**

Posi-Tap 16-18 Gauge Wire

- Powers (2) 20, (1) 18, or (1) 16 gauge accessory leads.
- Max Accessory OD .125" (3.2 mm)
- Max Tap OD .105" (2.7 mm) 16 ga, Min Tap OD .072" (1.85) 20 gauge

POS-PT1618 .....**Package of 5**

Posi-Tap 20-22 Gauge Wire

- Powers (2) 20, (1) 18, or (1) 16 gauge accessory leads.
- Max Accessory OD .125" (3.2 mm)
- Max Tap OD .075" (1.85) 20 ga, Min Tap OD .065" (1.65)

POS-PT2022R .....**Package of 5**

Weather Pack Connector Kits

Wire like the pros with these locking weather pack connector kits. Silicone seals protect against dust, dirt, moisture, and ensure a fail-safe connection. Connector kits are available in one through six pin configurations and include connector bodies. Male and Female 16-14 gauge terminal pins and green seals.

FAS-401-101 .....One pin
FAS-401-102.....Two pin
FAS-401-103 .....Three pin
FAS-401-104 .....Four pin
FAS-401-106 .....Six pin

Replacement Pins (5 male and 5 female)

FAS-401-111.....20-18
FAS-401-112 16-14
FAS-401-113 12-10

Pin Extraction Tool

Required for safe removal of pins from weather-pack housing. **LAR-44909**

Weather Pack Crimp Tool w/Crimp Dies

- Use with weather pack connector kits
- Rachet style crimper ensures a positive connection
- Fast and easy
- Add the spark plug dies to make your own plug wires.

LAR-44905

Fuseholders

Inline ATC Fuseholder - 10 Gauge

FAS-500-002

Fuse Kit

ATO/ATC automotive fuse assortment. Contains a total of 15 fuses, 3 each of the following values 5, 10, 15, 20, and 30 amp.

FAS-501-109

Relay Socket

Prewired relay socket for use with Bosch type automotive relays. Features five 14 gauge multi-colored 12" leads and are gangable. Includes wiring diagram. **FAS-200-001**

Bosch OEM Relay

- Bosch P/N (0 332 209 150) SPDT automotive relay
- OEM on many applications
- Plastic housing w/ mounting tab
- 30 amp

FAS-201-002

Relay and Socket Assembly

12V SPDT 30 amp relay and prewired socket with 12" leads. Many uses include controlling fuel pump, water pump, fans, or any other high current accessory. Diagram included. **FAS-900-000**

Assorted Terminal Kit- 180 Piece

Includes in-line butt-splices, quick disconnects, 22- 10 AWG closed ring and open spade terminals. **RPW-05107**

Motorcycle Electrical Repair Kit

This handy repair kit contains a voltage tester, crimping tool, fuse puller, test leads and 202 electrical parts for auto, truck, motorcycle and RV repair. This kit needs to be in your trunk or traveling toolbox! **RPW-05207**

High Temp Sleeving Kit

Kits include 3' length of Fastronix Ultra high temp sleeving and (6) adhesive lined heat shrink ends to hold and bond sleeving. Use to protect cables and wiring from extreme heat areas.

FAS-140-110.....3/8”
FAS-140-120 .....1/2”
FAS-140-130 .....3/4”

Pre-Cut Heat Shrink

1-1/4" long dual-wall heat shrink pieces with adhesive liner allows you to quickly secure & weatherproof all crimp terminals, wire splices & connections.

FAS-404-011 .....1/4”, 20 pack
FAS-404-012 .....3/8”, 15 pack

Centech AP-1 Auxiliary Fuse Panel

The AP-1's compact size (3.0" x 2.4" x 1.25") allows for easy installation. Once the fuse panel is mounted, you simply attach the positive and negative wire between the power source (battery or relay) and the heavy power studs on the panel. This will allow the AP-1 to supply safe, fused power for up to eight individual electronic devices, including radio, GPS and other accessories up to 60 amperes. Each AP-1 comes complete with fuses and necessary hardware, instructions and one year warranty. **CEN-AP-1**

Centech AP-2 Dual Fuse Panel

The AP-2 fuse panel is identical to the AP-1 panel with the exception that the AP-2 is divided into two electrical sections. The main section contains three fuses and feeds five outputs while the second section has two fuses and three outputs. The advantage of having two sections is that it allows the enthusiast to have fused power available for devices which need constant battery power and those which need to be switched "OFF" with the ignition key. The AP-2 can handle a maximum of 60 amperes divided into a 40 ampere and 20 ampere section. The built-in GROUND section handles a maximum of 60 amperes. The AP-2 can be connected directly to the battery or to your ignition switch. Each AP-2 comes complete with fuses and necessary hardware, instructions and one year warranty. **CEN-AP-2**

BestRest Universal Power Plug

The unique design of this male power plug allows it to fit a european-style DIN (BMW) power outlet, or an SAE automotive cigarette outlet. Your powering options just doubled! To convert from a cigarette lighter plug to a BMW plug, just pull off the black ring. When you're done, replace the ring and it'll fit the cigarette outlet again. You'd be surprised just how handy this dual purpose plug becomes. **BR-PP-U**

Circuit Breaker Panels

Simplify many automotive wiring projects with these 4 gang circuit breaker panels featuring automatic reseting circuit breakers, 10-32 stud terminals, common input bus bar and all metal mounting bracket. Available in 10 or 20 amp configurations for 12 volts.

FAS-950-001.....4-20 amp

FAS-950-000 .....2-10 amp & 2-20 amp CB panel

Ctek Chargers & Electrical Products

US 800 Battery Charger

- Easily charges all small batteries.
- Excellent maintenance charger for motorcycles and other seasonal vehicles.
- Automatically switches to maintenance once battery is charged.
- Charges lead-acid batteries (Wet, MF, Gel and AGM) from 1.2Ah to 32Ah, 1.2Ah to 100Ah for maintenence charging.

CTK-56171

Multi US 3300 Battery Charger

- Especially well-suited for automotive use.
- Fast recharging and powerful maintenance performance, even in the coldest weather conditions.
- Charges lead-acid batteries (Wet, MF, Gel and AGM) from 2Ah to 90 Ah.
- Three modes for small batteries, large batteries and a special cold mode that is suitable for AGM batteries.

CTK-56158

Multi US 7002 Battery Charger

- Thorough 7-step process for charging, reconditioning and maintenance.
- Also functions as a power source, enabling in-place battery recharging w/ no loss of power to the vehicle or to the memory of vehicle electronics.
- Four options: 14.4V, 14.7V, 13.6V/Supply & 16V/Boost.

CTK-56159

Comfort Connect

Permanently mount Comfort Connect with eyelet terminals on your battery for fast and easy charging.

CTK-56261

Comfort Indicator Panel

Shows the status on the battery and is perfectly suited in the standard panel on the vehicle.

CTK-56380

Cigarette Adapter

CTEK Cig-Plug enables charging the battery through the cigarette outlet.

CTK-56263

Comfort Indicator Eyelet

Shows the status on the battery and is perfectly suited for permanent installation on batteries that are hard to reach.

CTK-56382

Comfort Indicator Clamps

Comfort Indicator clamp easily shows the status on the battery. **CTK-56384**

Need more information on Ctek Chargers and Accessories? Visit our Ctek Battery Charger category online for product sheets and manuals.

Battery Lugs

- Flared end for easy cable insertion
- Heavy duty copper lugs
- For #2 or #4 cable
- Can be crimped or soldered
- Pack of 4

FAS-405-112 .....#4 gauge, 5/16" hole
FAS-405-113 .....#4 gauge, 3/8" hole
FAS-405-012 .....#2 gauge, 5/16" hole
FAS-405-013 .....#2 gauge, 3/8" hole

Terminal Strip Kit

Use to eliminate splicing and simplify many automotive wiring projects. Contains 3 quality double row terminal blocks (4, 6 and 8 position) with 6-32 screws and 40 16-14 gauge nylon double crimp ring terminals.

FAS-940-200

Deutsch Style Connectors

Fastronix sealed connectors provide superior weather protection and is the preferred choice of many top race teams. The silicone gaskets and precision construction make for a weather resistant severe duty construction. Mates directly with Deutsch DT series connectors. Kits include all necessary parts and detailed instructions. 14-16 gauge pins. 13 amp/pin.

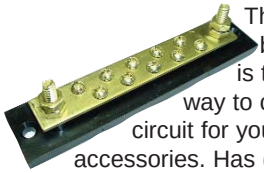
Ground Terminal Strip



This common bus brass terminal strip is the best and right way to create a ground circuit for your dash area or accessories. Has (10) 8-32 screw terminals and (2) 1/4-20 supply studs on an insulated base with mounting holes.

FAS-406-210

Battery Jumper Posts

Makes it easier to jump-start or charge the battery; color-coded red and black.

LAR-45720 .....red, positive
LAR-45740 .....black, negative

Odyssey Batteries

The Odyssey battery combines in one box the characteristics of two separate batteries. It can deep cycle as well as provide enormous cranking power. These batteries are capable of providing engine cranking pulses in excess of 1700A for five seconds as well as 400 charge/discharge cycles to 100 percent depth of discharge (DOD). Odyssey batteries will provide short-duration high amperage pulse or low-rate with long-duration drains.

Features:

- Guaranteed longer service life (with a 10-year design life and a three- to eight-year service life, Odyssey saves you time and money because you won't have to replace the battery as often)
- Superior cranking and fast charge capability (The five-second cranking power of Odyssey batteries is double to triple that of equally sized conventional batteries, even at low temperatures)
- Mounting flexibility (The Odyssey battery may be installed on its sides at any angle)
- Superior vibration resistance
- Two-year storage life when fully charged
- Deep discharge recovery

PC-545MJ

PC-680MJ

Odyssey Ultimizer Battery Chargers

- Designed specifically for Odyssey batteries only
- UL 815G listed
- 3-step charge profile ensures fast, complete & safe charge
- Continuous trickle charge keeps battery fully charged during extended periods of non-use
- Sequential charging technology keeps triple bank chargers lightweight & compact

OMAX-12A-1B

Visit www.racerpartswholesale.com for a complete motorcycle application guide.

Battery Tender® Plus Battery Charger

Differs from a trickle charger in that it automatically switches from a full charge to a float-charging mode and then monitors the battery. You can leave the battery tender connected to a battery for extended periods of time without worrying about boiling or overcharging the battery. Check fluid level monthly. **The Battery Tender Plus has a 10 year warranty** and temperature compensation.
BAT-TENDER

Digital Volt Meter 5 in 1

Includes voltage monitoring from 11 to 16 volts with thermometer, ice alert, clock, stop watch and lap counter. Velco attachment.
BBP-4-239

Chrome LED Volt Meter

Features 10 LEDs in 5 different colors to show voltage draw. The meter measures in 1/2 volt stages from an 11 to 15 volt range. The meter unit measures 2-1/4" x 1" x 1/2" deep and attaches with double sided tape provided. **BBP-13-303**

Powerlet Electrical Products

Powerlet Tank Bag Electrical Kits

Our Powerlet kits include what you need for a total solution! You may however need additional adapters or internal modules to suit the electronics you may run. We recommend buying our kits, but all Powerlet items are available separately for your installation. **Pictured installed in Marsee Tank Bag with optional cell phone cord.**

Powerlet Kit A- for BMW's, Triumphs and Ducatis

This kit is your solution to powering items in your bag! Kit A is for BMW's, Triumph GT, ST and Ducati's with factory installed outlets.

Includes:

- Powerlet plug, right angle, 34" long. This plugs into your factory plug socket already in your bike and runs up to the Powermate outlet on the tank bag.
- Powermate Power Supply Socket. The Powermate outlet is the piece that installs into your tank bag and gives you a standardized viewport accessible inside your tank bag in a variety of internal cables.
- Internal cable plugs inside tank bag into Powermate outlet. One internal Y-cable provided with one SAE plug for electric clothing and one cigar (large cigarette auto-style outlet) good for charging cell phone, GPS etc. For those with more than one type of device, you may need to order additional cables.

MAR-KIT-A

Powerlet Kit B- Installs Directly on Battery

This kit is your solution to powering items in your bag! Kit B is for most bikes. Installs directly to battery.

Includes:

- 48" long fused battery lead. This easily installs onto battery and cable runs up to the Powermate outlet on the tank bag. Includes fuse. This cable should reach from battery to front of tank bag.
- Powermate Power Supply Socket. The Powermate outlet is the piece that installs into your tank bag and gives you a standardized viewport accessible inside your tank bag in a variety of internal cables.
- Internal cable plugs inside tank bag into Powermate outlet. One internal Y-cable provided with one SAE plug for electric clothing and one cigar (large cigarette auto-style outlet) good for charging cell phone, GPS etc. For those with more than one type of device, you may need to order additional cables

MAR-KIT-B

Build Your Own Powerlet Kit!

To build your own kit, select an external power source. Then purchase the Powermat Kit (PWR-PTB-001) and add any internal connectors you need. Or make it simple and purchase Powerlet Kit A or Kit B from above.

External Power Sources

Powerlet to Powermate Cable- Straight

Power your tank bag from a BMW, Triumph, Ducati or Powerlet socket. Manufactured with a Powerlet Deluxe Cable and 16 AWG wire. Similar to PAC-011, but with a straight connector.

PWR-PAC-009-24 ..... **24" Long**
PWR-PAC-009-30 ..... **30" Long**

Powerlet to Powermate Cable- Right Angle

Power your tank bag from a BMW, Triumph, Ducati or Powerlet socket. Runs from bike outlet to Powermate. Manufactured with a Powerlet Deluxe Cable Plug and 16 AWG wire. Lower profile with right angle end.

PWR-PAC-011-06 ..... **6" Long**
PWR-PAC-011-12 ..... **12" Long**
PWR-PAC-011-18 ..... **18" Long**
PWR-PAC-011-24 ..... **24" Long**
PWR-PAC-011-30 ..... **30" Long**

Battery Lead

Power your tank bag directly from your battery. Runs from the battery to the Powermat Kit. Works on most bikes. This 15 amp fused battery lead is manufactured with 16 AWG wire. Includes 1 fuse.

PWR-PKT-001-24 ..... **24" Long**
PWR-PKT-001-48 ..... **48" Long**

SAE Extension Cable

Compatible with all brands of SAE connectors. This handy extension cable is perfect if you need more cable length.

PWR-PAC-022-24 ..... **24" Long**

powerlet™ EQUIPPED

Powerlet Front Panel Socket Kit

Our most popular panel kit. The 48 inch length is perfect for reaching from an under-the-seat battery to a front panel.
PWR-PKT-042-48

Powerlet Side Panel Socket Kit

This 24 inch length works very well on metric cruiser, Harley Davidson, and sportbike side panels. This kit works equally well on front panels for bikes with the battery in the front fairing.
PWR-PKT-042-24

The Powermate Kit

Molded plastic SAE flange mounts conveniently into any tankbag or saddlebag (soft or hard sided luggage). Easy to install, this bulkhead connector permits power to be passed through the luggage wall. The Powermate includes: Anodized backing plate, black oxidized stainless screws, stainless Ny-Lock nuts, plus detailed instructions. Internal plug is SAE male. External plug is SAE female. To build your own Electrical Kit, purchase this item, plus an external power source and the internal cables that you require for your devices. **PWR-PTB-001**

Internal Cables

Powerlet to Garmin 4-pin Coil Cord

Works with various Garmin models including the Garmin III+, V and Streetpilot requiring Garmin's 4-Pin round connector. Features a 36" coil cable and Powerlet Right Angle Plug. **PWR-PPC-001**

Powerlet to Escort Power Cord

Works with Escort Radar Detectors. These cables directly connect your detector to a Powerlet Socket. **PWR-PPC-004**

Powerlet Cigarette Adapter

Connects any cigarette plug to a Powerlet socket. 10” approximate length. **PWR-PAC-002**

Powerlet Basic Plug To SAE

Manufactured with a basic plug (PPL-001) and 18awg wire. Ideal solution to connect a battery charger through a Powerlet socket. 12” long.
PWR-PAC-008

Powerlet Plug to Banana Plug

Used around the shop to plug into a Powerlet socket and check the state of a battery; useful to diagnose charging problems. 18" long with standard banana plug. **PWR-PAC-003**

Powerlet to 2 SAE

Ideal to split your Powerlet socket into 2 SAE’s.
PWR-PAC-006

Powerlet Plug to 2 Powerlet Sockets

Splits a single Powerlet socket into 2.
PWR-PAC-007

Powerlet to SAE Cable

Manufactured with a deluxe plug (PPL-002) and 16awg wire. Ideal for connecting a battery charger, heated clothing or Luggage Electrix through a Powerlet socket.
PWR-PAC-009-24.....**24” Length**
PWR-PAC-009-30.....**30” Length**

Powerlet Electrical Products

Powerlet Super Plug to SAE-Heavy Duty Cables

Manufactured with a super duper plug (PPL-003) and 16awg wire. Ideal solution to connect a battery charger, heated clothing or Luggage Electrix through a Powerlet socket.

PWR-PAC-010-06 ..... **6" Length**
PWR-PAC-010-12 ..... **12" Length**
PWR-PAC-010-18 ..... **18" Length**
PWR-PAC-010-24 ..... **24" Length**
PWR-PAC-010-30 ..... **30" Length**

Powerlet to SAE Cable

External cable for powering SAE Luggage Electrix Bulkheads. Low profile right angle plug (PPL-004) for maximum clearance. Can also be used to convert a battery charger or SAE heated clothing to a Powerlet socket.

PWR-PAC-011-06 ..... **6" Length**
PWR-PAC-011-12 ..... **12" Length**
PWR-PAC-011-18 ..... **18" Length**
PWR-PAC-011-24 ..... **24" Length**
PWR-PAC-011-30 ..... **30" Length**

24" Powerlet to Cigarette Socket Cable

Convert any device that has a cigarette type plug to a Powerlet socket (BMW type), including cell phones, radar detectors, air compressors, etc. Designed to reach inside tankbags, this cable uses a low profile right angle plug. **PWR-PAC-012**

SAE Y-Cable

Converts one SAE into two SAE's. Great for Luggage Electrix or for powering two heated vests from one SAE battery lead. 6" long. **PWR-PAC-023**

SAE to Cigarette Socket Cables

Convert a SAE Luggage Electrix lead (Battery Tender harness) to a Cigarette socket. Good for cell phones, radar detectors & GPS units. Carry this in case of an emergency, plugs into any Battery Tender lead!

PWR-PAC-024-12 ..... **12" Length**
PWR-PAC-024-18 ..... **18" Length**

SAE to Powerlet Socket Cable

Convert a SAE Luggage Electrix lead (Battery Tender harness) to a Powerlet socket. 6" long. **PWR-PAC-025**

SAE to Cigarette Socket and SAE Y-Cable

Convert a SAE connector or Battery Tender pigtail into one cigarette socket & maintain the SAE. Good for cell phones, radar detectors, heated vests & GPS units. 6" long. **PWR-PAC-026**

SAE to Cigarette Socket and Powerlet Socket Y-Cable

Convert one cigarette socket & one Powerlet (BMW type) socket. Good for cell phones, radar detectors, heated vests & GPS units. 6" long. **PWR-PAC-027**

Powerlet to Two Cigarette Sockets

Connect two cigarette plugs to a Powerlet socket. Approx 10" & 12" long leads. **PWR-PAC-028**

Powerlet to Cigarette & Powerlet Socket

Connects any two devices that have a cigarette type plug to a Powerlet socket (BMW type), including cell phones, radar detectors, air compressors, etc. 8" & 10" staggered length. **PWR-PAC-029**

SAE to Dual Cigarette Socket Y Cable

Convert one SAE connector to two cigarette sockets. Good for cell phones, radar detectors & GPS units. 6" long. **PWR-PAC-030**

Powerlet to Dual Cigarette Socket Coil Cable

Connects any two devices that have a cigarette type plug to a Powerlet socket (BMW type), including cell phones, radar detectors, air compressors, etc. Coil cord is 24" then stretches to over 4 ft for easy connection. **PWR-PAC-031**

SAE to 2 Powerlet Sockets Y Cable

Convert one SAE connector to two Powerlet sockets. 6" long. **PWR-PAC-034**

SAE to Cigarette and Coax Y Cable

Convert one SAE connector to a cigarette socket and one coax for a heated garment. Good for cell phones, radar detectors & GPS units along with powering Powerlet, Gerbing's or Warm & Safe heated clothing. 6" long. **PWR-PAC-035**

Additional Powerlet Products Available.
Please call with your specific needs.
1-800-397-7815

Techmount has been designing, developing and manufacturing high quality products since 1995. As motorcyclists and motorcycles become more technically oriented, the need for additional accessory mounting means become vital. All the mounting tools required for installation come with the products and there is no drilling or fabrication required for installation. Techmount products are 100% American made and are machined from T6 6061 aluminum to precise tolerances then plated with durable anodize or chrome finish. All hardware used is stainless steel.

Handlebar Mount

Techmount's Third Generation Handlebar Mount has no need for a shaft, which makes this mount very strong and compact. Techmount combined handlebar sizes from 7/8" (22mm) up to 1-1/4" (32mm) into one mount system. This allows it to fit virtually every motorcycle with tubular handlebars. Requires only 3/4" of handlebar space and can be mounted at any angle.

Euro Mount Systems

Euro Mount Systems mount onto the top of the fork tube on many European sport bikes. This system is easily installed by sliding the clamp over the fork tube that protrudes from the top triple clamp and tightening the tension screw. Since each Euro Mount is machined to match the fork tube diameter, once installed it looks as if it's part of the bike. Silver color.

RAM-B-202

Ram Motorcycle Base with 1" Ball

The RAM-B-309-1 (single 1" ball) and RAM-B-309-2 (double 1" ball) mount bases are part of the RAM 309 Clutch/Brake Motorcycle Family. These bases connect to your handlebar clutch/brake clamp, left or right side, and hold one or two 1" diameter mounting balls. The base fits the control clamps on your motorcycle with 40mm x 6mm stainless steel hardware, provided in the kit.

RAM-B-309-1 (pictured)....**With 1- 1" Ball**
RAM-B-309-2.....**With 2- 1" Balls**

Ram 2-7/16" x 1-5/16" Base with Ball

The RAM universal plate has a 1.0" diameter rubber ball connected at right angles to a 1-1/4" x 2-1/2" diamond plate. The plate has two holes 1.912" from center to center, positioned at either tip of the diamond plate. This base plate will attach to any of the RAM composite HOL holders and the industry standard AMPS hole pattern.

RAM-B-346U

Ram Base Adapter for Tom Tom Rider

2-7/16" x 1-5/16" base
RAM-B-238-T02U

Ram Cycle Pivot Base with Stud

Made of die cast marine grade aluminum, durability won't be a concern. The Twist and Tilt™ can turn 360 degrees. The 1" ball can be rotated forward and back 90 degrees. The Twist and Tilt™ Mount includes the following male threaded screws: ¼"-20, M6-1.0, M8-1.25, M10-1.25 **RAM-B-360U**

The image to the left shows the TomTom Rider unit mounted with a Ram B-231-1U U-Bolt Mount, a B-201 Arm, and B-238-TO2U Tom Tom Rider Adapter.

RAM BASE 2" X 3" with 1" BALL

RAM-B-202U-23

Ram Base with 9mm Hole & 1" Ball

This part is often used on motorcycles to attach to the mirror frame (mainly BMW).
RAM-B-272U

Ram Motorcycle Stem Base with 1" Ball

RAM-B-342U

Ram Double Socket Arm for 1" Balls

The double socket arm has a socket at either end to allow 1" diameter ball accessories to be connected. A tightening screw on the side of the arm enables the sockets to clamp firmly to a RAM 1" diameter ball. When loosening the side screw, a single spring inside the arm opens the sockets allowing you to pivot the ball and socket connection or completely disconnect the ball from the socket. 1.75", 3" and 6" lengths are available (measured socket to socket).

Chatterbox Communication Systems

Chatterbox XBi Wireless Intercom- Rider to Passenger Communication

XBi Full Face Kit

This unit allows rider to passenger communication via CDMA crystal clear technology, using either voice activation or push-to-talk. Both rider and passenger module is capable of pairing with up to two accessory devices at the same time. (ex. iPod, Mp3, satellite radio, GPS, cell phone, radar detector). SMART technology will automatically prioritize the transmission of the paired devices. The XBi is so far advanced that it can even stream music from one module to the other. Each module is also capable of being used by itself to pair accessories when riding alone. Other features include: Li-Pol (lithium polymer) rechargeable battery with 6-8 TRUE hours of power, 1 hour express charge, noise suppression Hi-Fi headset, compact aerodynamic module design. Note: Each kit comes with everything you need for 1 helmet.

Kit Includes:

- XBi Unit
- Dynamic Noise-Supression Microphone
- Hi-Fidelity Speakers
- Rechargeable/Replaceable Li-Poly Battery
- Mounting Hardware
- AC/DC Home Charger

CBR-CBXBiFKIT .....**XBi Full Face Kit**

Chatterbox DC Power Filter Cord

With the Chatterbox DC power filter cord there are no worries of the batteries in your unit going dead. Wire directly to your bike's power.

CBR-CBXBiPREX

Chatterbox Bluetooth Adapters

I-Pod Adapter

Universal Adapter

Adapters use Bluetooth 2.0 (A2DP) technology to wirelessly stream music from either your I-Pod player with standard dock connector or a universal device with 3.5mm headset jack (MP3 player, satellite radio or GPS). It has an internal rechargeable battery that lasts 6-8 hours. The Bluetooth Dongle has a wireless range of up to 30 feet.

CBR-CBBTA.....**I-Pod Bluetooth Adapter**
CBR-CBBTD .....**Universal Bluetooth Adapter**

Chatterbox XBi2 Wireless Intercom- Rider to Rider Communication

XBi2 Unit

The XBi2 is Chatterbox's latest bike-to-bike wireless intercom that also comes equipped with A2DP Bluetooth technology. It has all the features that the XBi has, but with additional power that will allow simultaneous communications between 3 riders. Works up to 500 meters of range in optimum conditions. Each module is capable of pairing with up to two accessory devices at the same time. It will allow for up to 6-8 hours of true talk time and 48 hours of standby time on one charge. Note: Each kit comes with everything you need for 1 helmet.

Kit Includes:

- XBi2 Unit
- Dynamic Noise-Supression Microphone
- Hi-Fidelity Speakers
- Rechargeable/Replaceable Li-Poly Battery
- Mounting Hardware
- AC/DC Home Charger

CBR-CBXBi2FKIT .....**XBi2 Full Face Kit**
CBR-CBXBi2OFKIT .....**XBi2 Open Face Kit**

Chatterbox XBi and XBi2 Headsets Only

Have a new or extra helmet you want to use your XBi or XBi2 unit with? Simply purchase the additional headset to install in your second helmet and use your own XBi or XBi2 unit.

CBR-CBXBiFHS.....**Full Face Headset**
CBR-CBXBiOHS.....**Open Face Headset**

Chatterbox XBi2 Kit for HJC IS Max Helmet

ChatterBox re-designed its award winning bike-to-bike wireless Bluetooth intercom, the XBi2 to be incorporated into the HJC IS-MAX BT helmet. The IS-MAX BT helmet has a built-in recess to readily install the XBi2-H as the unit fits nice and flush into the helmet for less wind resistance and ergonomic design. It has all the same features as the XBi2 and will communicate with up to two other XBi2-H or XBi2 units. Each kit comes with everything you need for 1 helmet.

Kit Includes:

- XBi2-H Unit
- Dynamic Noise-Supression Microphone
- Hi-Fidelity Speakers
- Rechargeable Li-Poly Battery
- Mounting Hardware
- AC/DC Home Charger

LIMITED WARRANTY

MOTOR RACING AND MOTORCYCLE RIDING ARE EXTREMELY HAZARDOUS. INJURY OR DEATH CAN AND DO OCCUR. THE PRODUCTS WE SELL HAVE NO WARRANTY OR REPRESENTATIONS MADE ABOUT THEIR ABILITY TO PROTECT AGAINST INJURY OR DEATH. THE USER ASSUMES THAT RISK.

We're racers and riders. Sometimes we go too fast. Racer Parts Wholesale and its agents and subcontractors are not responsible or liable for errors or omissions. Prices are subject to change without notice.

RACER PARTS WHOLESALE (referred to as the "warrantor") will repair or replace products proven to have a defect in materials or workmanship with new or refurbished parts free of charge in the United States within 30 days of the original purchase. We do not warranty any electrical components or assemblies. Manufacturer warranties, if any, will apply. Our warranty is extended only to original purchaser. A purchase receipt or other proof of date of original purchase will be required before warranty service is rendered.

The warranty only covers failures due to defects in materials or workmanship which occurred during normal use and does not cover normal maintenance, including but not limited to normal wear and tear of the product incurred during its intended use. It does not cover damage which occurs during shipment or failures which are caused by products not supplied by the warrantor or failures which may result from accidents, misuse, abuse, neglect, mishandling, misapplication, alteration, faulty installation, set up adjustments, modifications or commercial use, or other business or rental use of the product or damage which is attributable to acts of God.

Limits and Exclusions

There are no express warranties except as listed above. THE WARRANTOR SHALL NOT BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE OF THIS PRODUCT, OR ARISING OUT OF ANY BREACH OF WARRANTY. ALL EXPRESS AND IMPLIED WARRANTIES INCLUDING THE WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO THE APPLICABLE WARRANTY AND SET FORTH ABOVE. Some states do not allow the exclusion of limitation of incidental or consequential damages, or limitations on how long an implied warranty lasts, so the above exclusions or limitations may not apply to you. This warranty gives you specific legal rights and you may also have other rights which vary from state to state. If a problem with this product develops during or after warranty, you may contact the warrantor at the following address: 411 Dorman St., Indianapolis, IN 46202-3647, U.S.A. Repair work which does not involve defective materials or workmanship is not covered by this warranty. Costs of such service, including shipping charges, are the responsibility of the purchaser.
